APP mode

This APP program requires that the minimum systems of your phones is Andriod 4.3 orios 8.0.No limit for mobile phone configuration.

You can download APP by scanning QR codes on IOS or Android systems
Use Apps with scanning function such as browser to scan the QR code

Kindly launch the strip lights control application on your mobile device that enables you to connect one or multiple LED strips via Bluetooth and allows you to set and control various LED strips simultaneously. Functions are listed as follows:

- 1.Adjust the brightness and color temperature of 60 kinds of colors for both colorful LED strip and monochrome LED strip;
2. Playing any music on your phone or in the Apps with music function would make the colors and brightness of the light change automatically according with the music rhythm,which is absolutely beautiful.
- 3.The multiple color change modes makes the color change automatically and would keep changing even the phone is disconnected with the strips lights.
- 4.Long distance control without direction restriction and multiple controls is allowed
- 5.Once been connected,your phone would connect to the light strips automatically after you turn on your bluetooth.
