Assembly instructions

1. Attach the hose to the light and then put the light's cord and the hose through the top of the ball piece
2. Pass the pump's cord through the inlet pipe on the main body of the fountain.
3. Attach the hose and light connection to the pump.
4. Connect the pump cord to the transformer, fill the fountain with water, then plug in.

Make sure the pump is fully submerged in water. The LED lights can be turned off if preferred. Just disconnect them from the pump and cap the connections.
