

INSTALLATION GUIDE

First of all, make sure that all parts are present.

STEP1 Install the lampshade and place it onto the lamp holder of the main body.

STEP2 Fix the lampshade onto the main body with a locking ring.

STEP3 Install light bulb.

STEP4 Connect the plug, gently touch the base to illuminate the light source of the shade (three-step dimming: low, middle, high). Gently touch the small dot to illuminate the light source of the column (short press for color change, long press for smooth dimming).
