Assembly Instructions

Caution: You must read this before you proceed

BEFORE USE

- Foam is sensitive to temperature. When exposed to colder temperatures your Bean bag will become firmer. Your body heat will help the foam soften.
- External heat source, not recommended on the Bean Bag doing so will damage the Bean Bag.
- New foam may initially have a slight odor: it is completely harmless and will dissipate over a short time with regular use.

WASHING CARE

- Pre-wash the zippered cover before first use.
- Wash zippered cover separate from other items as zipper may cause damage to clothing or linens.
- Wash the zippered cover in cold water using a non-chlorine bleach detergent on a gentle cycle with cold water rinse.
- The Bean Bag can be spot cleaned with mild detergent by hand wash only; do not soak or machine wash the foam. Rinse with warmwater.

DRYING CARE

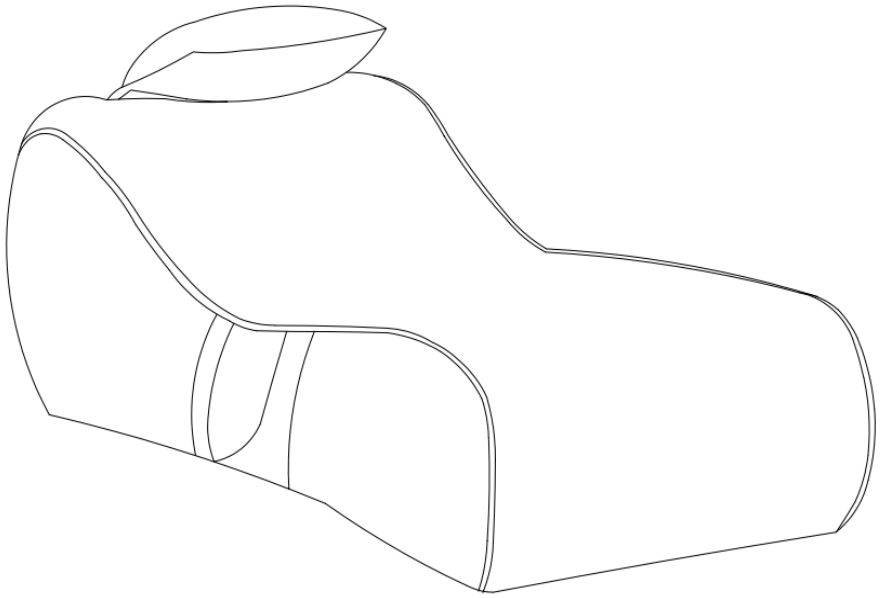

- Tumble dry zippered cover on low heat.
- Never use a high heat setting or over dry; this will weaken the fibers, cause shrinkage and or shorten the life of the cover.
- After spot cleaning the Bean Bag dry at room temperature away from heat or light. Do not machine wash or dry.

DETERGENT

- Use a mild liquid detergent, preferably non alkaline, without added bleach or whiteners.

ASSEMBLY INSTRUCTIONS

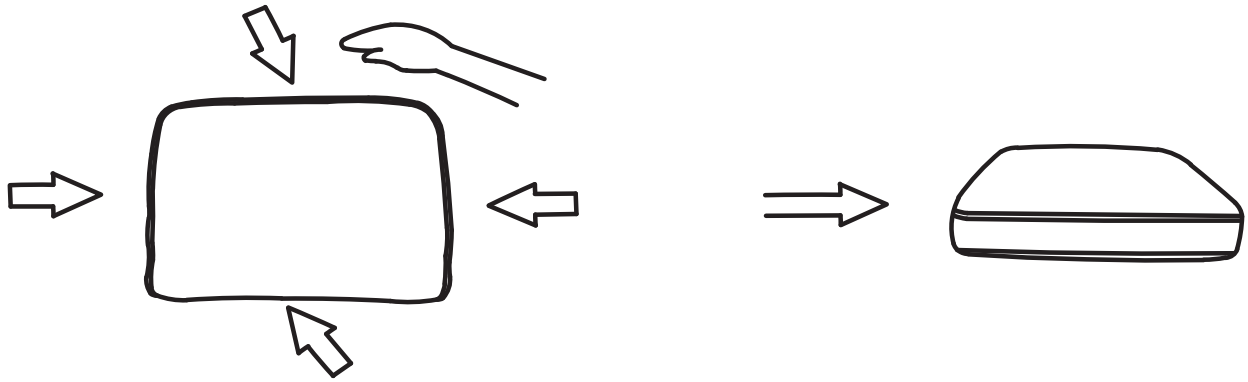

N775P493022

Return & Warranty policy:
--We strive to offer the highest quality products,and we also try our best to satisfy each and every customer that orders from us with replacement parts/or service as needed.
--If the item is damaged or defective, please take photos as evidence for replacements and refunds.
--Please do not return to store,contact the seller if you have any trouble with this product.

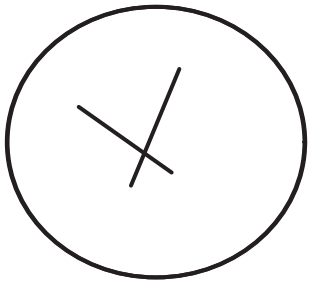

TIPS：

1. Due to differences of light effects, the actual color of the materials might be slightly different from the pictures.
2. Due to package compression for better shipment, the fabric may have wrinkles.
3. Please take all packages out and pat every part to make it rebound better and fluffy.
4. Please keep children away from the plastic bags.
5. Placement Suggestion-For better support, we recommend placing the sofa against a wall during use.

1.Pat to make it rebound better and fluffy.

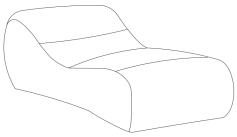

2.Knead your cushion like giving your cushion a massage while allowing the air to flow through the foam.

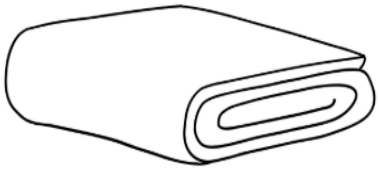

1-7days

It might takes up to 1-7 days.

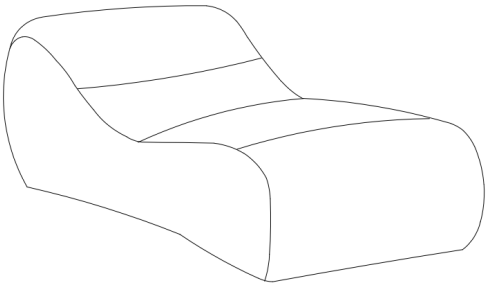

PART LIST:

NO	DESCRIPTION	SKETCH	QTY	
A	FABRIC COVER		1PC	N775P493022: Ax1 Bx1 Cx1 ①x1
B	FOAM STUFFING		1PC	
C	PILLOW STUFFING		1PC	
①	BLADES		1PC	

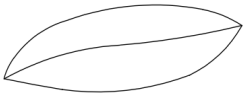

Before Beginning Assembly:

Cx1

①x1

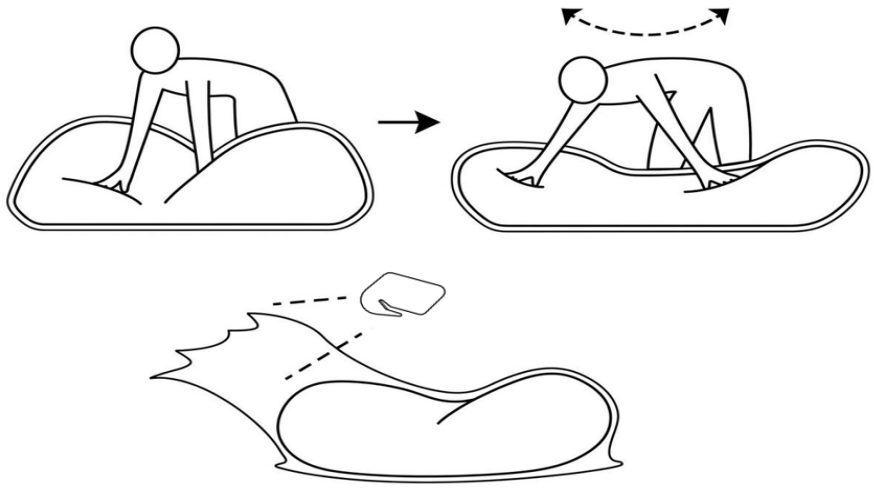

- Read instructions, cover to cover-
- Have 2 adults on hand for assembly-
- Do not assemble on flooring or carpet-
- Assemble on a clean non-marring surface (packing foam)-
- Save all packaging until finished-

Step 1

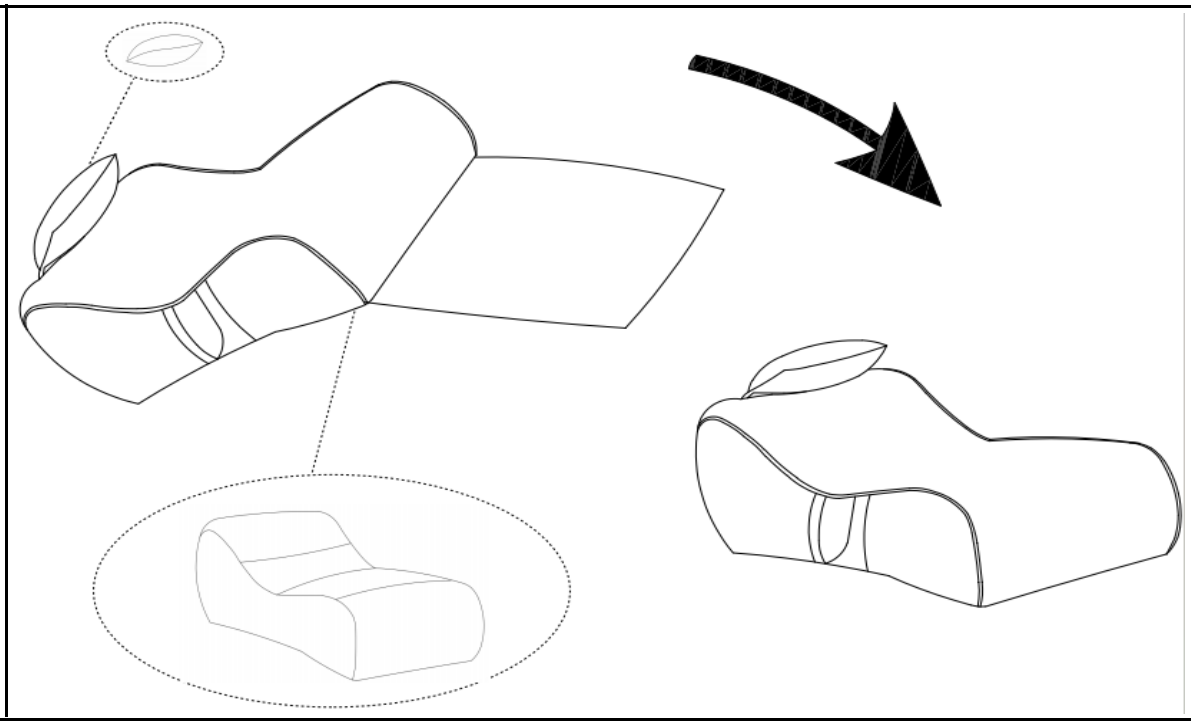

Take the bag of Foam stuffing and unroll it form its protective outer plasting wrapping revealing it inside its inner wrarpping.

Step 2

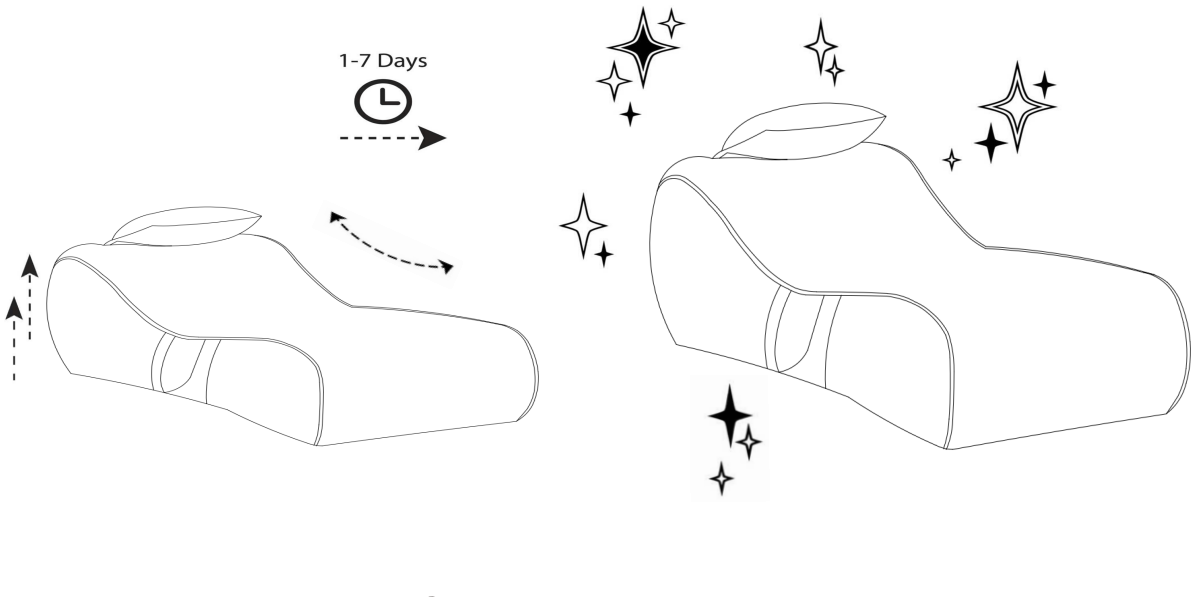

Flatten the Foam stuffing, leaving it within its inner wrapping. Then remove the wrapping by cutting it with scissors.

Step 3

Open the fabric cover completely, and slide it over the Foam stuffing (beanbag & pillow). The zipper should be oriented on the bottom.

Step 4

Adjust the stuffing inside the case, breaking up any lumps of Foam, then zip to close. Your beanbag will now need time to expand to its maximum size - this can happen as quickly as 6 hours, and can take up to 7 days. Then, enjoy!

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.
Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.
Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.
By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

- Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
