INSTRUCTIONS

■ Step 2

Cut the restraint straps binding the individual inner bladder, being careful not to puncture the vacuum compression bag.

■ Step 3

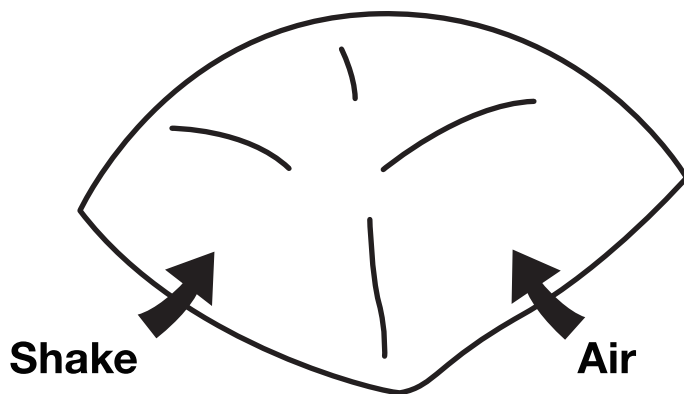

Find the seal of the compression bag (there is a 2cm hot stamped mark).
Cut along the entire mark to completely open the seal.

INSTRUCTIONS

■ Step 4

Please air it out in a well-ventilated area for 24-48 hours before first use. Punch and shake the inner bag vigorously to restore fullness.
