

THEODORE ALEXANDER

Grandeur 1

D1921S38411-3209

Grandeur is an exemplary study of composition that harks back to the Modern Art period of the 20th century. Overlapping elements are central to this work on paper, which features the layering of several visual components that create depth and texture. Chiaroscuro is richly employed with the use of light and dark to create depth and dimension. The effective color scheme in alabaster, cream, taupe, and sienna adds to the exquisite complexity of the composition.

An exclusive and original addition to the ART by TA Collection, a soft, gentle palette creates a feeling of graceful sophistication in Grandeur.
