Pet Car Booster Seat User Guide

Step 1

The product includes multiple parts: 2 PVC tubes, 1 removable strap, 1 removable front panel.

Step 2

Insert the PVC tubes into the side compartments and secure the hook-and-loop fasteners on the back to prevent the tubes from slipping out.

Step 3

Unzip the front flap and place the removable front panel into the front compartment of the car storage pouch.

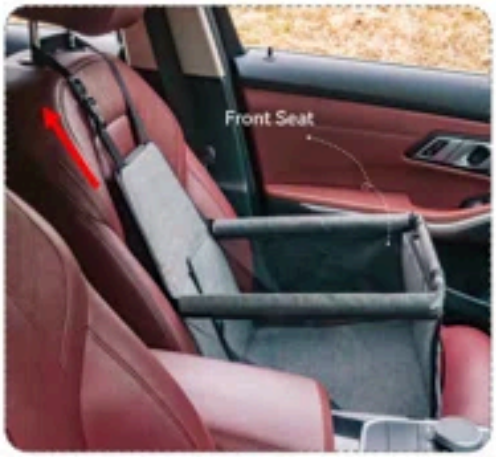

Step 4

Attach the removable strap to the metal rings as shown to complete assembly.

Usage 1

When placing on the rear seat, adjust the strap length and hang it over the front passenger headrest.

Usage 2

When placing on the front passenger seat, adjust the strap length and hang it over the headrest.
