Base cabinet Series Instruction (Item:B24-30)

Important: Read This Before You Start!

Pre-Installation Tips & Safety Notes

1. Lay all parts and hardware on a soft carpet/blanket to avoid scratches.
2. Manual screwdriver preferred (low torque for power drill , DO NOT over-tighten screws to avoid wood cracking).
3. LOOSE TIGHTEN FIRST, FULL TIGHTEN ONLY AFTER FULL ALIGNMENT.
4. Clean with soft damp cloth, do not use harsh chemical cleaners.
5. For missing parts or quality issues, contact us 24/7 for free replacement or partial refund.

Panel Parts List

P.ID	P/N	Qty
a	Face Frame	1
b	Side Panel	2
c	Bottom Panel	1
d	Back Panel	1
e	Cabinet Door	2
f	Adjustable Shelf	1
g	Toe Kick	1
h	Drawer Front Panel	1
i	Drawer Side Panel	2
j	Drawer Back Panel	1
k	Drawer Bottom Panel	1

Hardware Accessories List

HW ID	P/N	Specs	Qty	Usage
H1	Bracket Screw	Φ3.5*14mm	68 PCS	Step 1-7
H2	Hinge Screw	Φ4*16mm	8 PCS	Step 5
H3	Large Flat Head Hinge Screw	Φ4*20mm	4 PCS	Step 5
H4	L-Shaped Bracket	90°	10 PCS	Step 1
H5	Bow-Shaped Bracket	180°	10 PCS	Step 2
H6	DTC Soft-Closing Hinge	1-1/4	4 PCS	Step 5
H7	Rubber Bumper	/	8 PCS	Step 5-6
H8	Self-Adhesive Rubber Bumper	Bent Type	4 PCS	Step 9
H9	Iron Triangle Bracket	/	4 PCS	Step 5
H10	DTC Drawer Slide	21"	2 PCS	Step 7

Step 1

Install L-Shaped Brackets (H4)onto Face Frame (a) 、Toe Kick （g） & Back Panel (d)

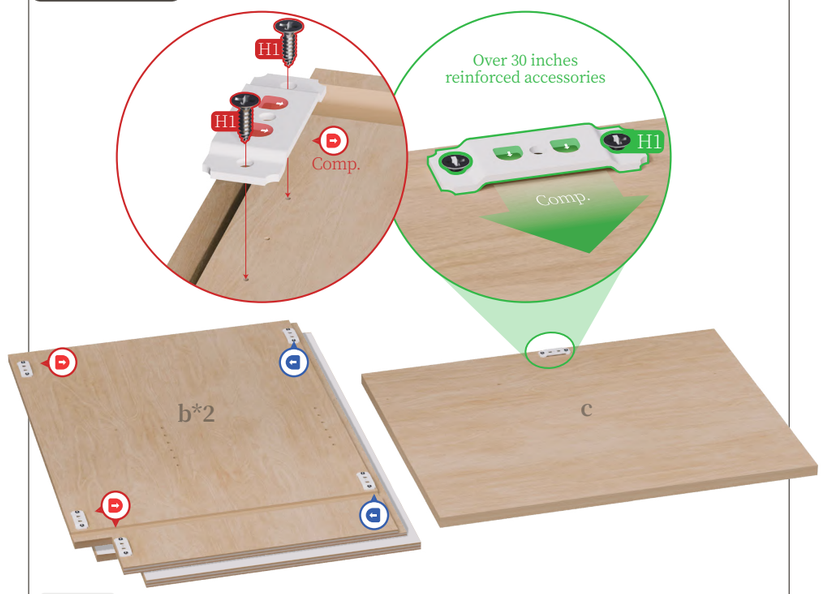

WY.N Face Frame (a) ×1 Back Panel (d) ×1 Toe Kick (g) ×1
Φ3.5*14mm Screw (H1) ×22 L-Shaped Bracket (H4) ×11

IMPT Align brackets with pre-drilled holes; avoid forcing screws. Do not over-tighten screws.

Step 2

Install Bow-Shaped Brackets (H5) onto Side Panels (b) & Bottom Panel(c)

WY.N Side Panel (b) ×2 Bottom Panel(c) ×1
Φ3.5*14mm Screw (H1) ×22 Bow-Shaped Bracket (H5) ×11

IMPT Two side panels (b) and one bottom panel (c), Wrong bracket direction will cause assembly failure in later steps.

Step 3

Assemble Side Panels、Back Panel & Bottom Panels

WY.N Side Panel (b) w/H5 ×2 Bottom Panel (c) ×1
Back Panel (d) w/H4×1 Φ3.5*14mm Screw (H1) ×4

IMPT Ensure all brackets are fully snapped, no gaps between panels, bottom panels must fit fully into the slots, no protruding edges.

Step 4

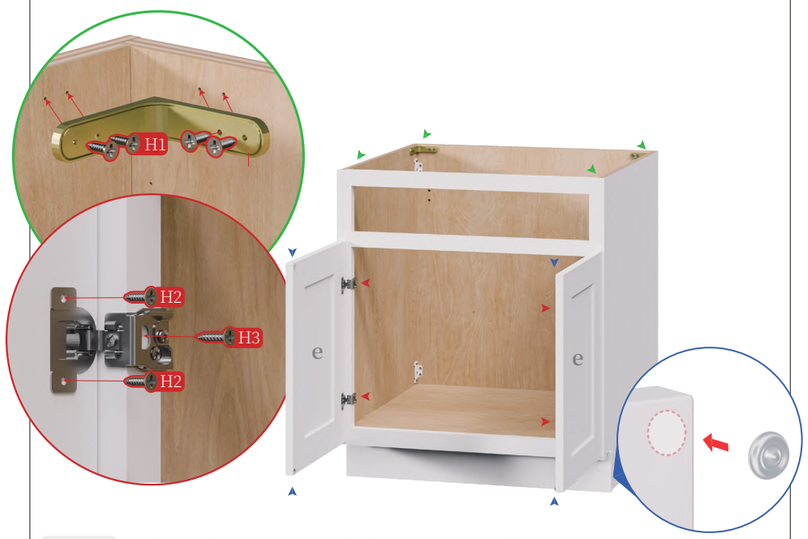

Attach Face Frame(a) & Toe Kick(g) to the Cabinet Body

WY.N Face Frame (a) ,Toe Kick(g) w/H4×1
Assembled cabinet body (from Step 3)×1 Φ3.5*14mm Screw (H1) ×7

IMPT Double-check all panels are aligned before fully tightening screws. If misaligned, loosen screws slightly, adjust panels, then re-tighten.

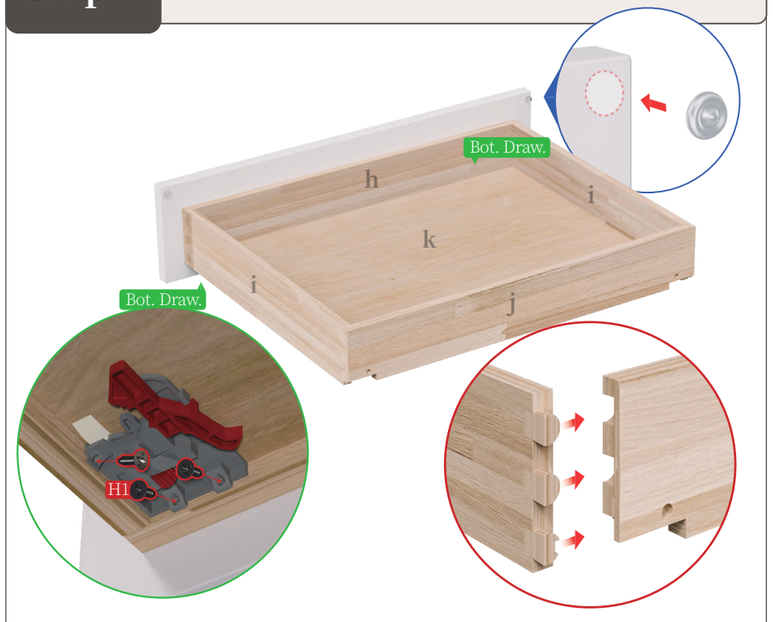

Step 5 Install Hinges(H6)、Cabinet Doors(e) & Rubber Bumpers(H7)

WY.N
Fully tightened cabinet body×1
Φ4*16mm Screw (H2) ×8
DTC Hinge (H6) ×4
Cabinet Door (e) ×2
Φ4*20mm Screw (H3) ×4
Rubber Bumper (H7) ×4

IMPT Align hinges strictly with pre-drilled holes to avoid door misalignment, Adjust hinges after installation to ensure smooth soft-close operation.

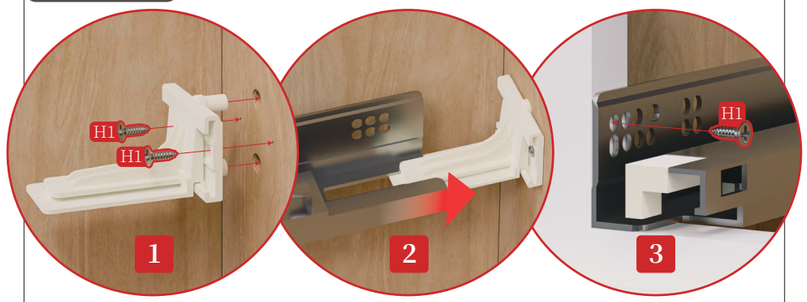

Step 6 Assemble drawers, install drawer bottom accessories

WY.N
Drawer front, side panels, back panel, bottom panel（h、i、j、k）×5
Rubber Bumper (H7) ×2
DTC Drawer Slide (Drawer Component) (H10) ×2

IMPT The tenon and mortise structure must be inserted smoothly, no forceful striking is allowed to avoid cracking of the board.

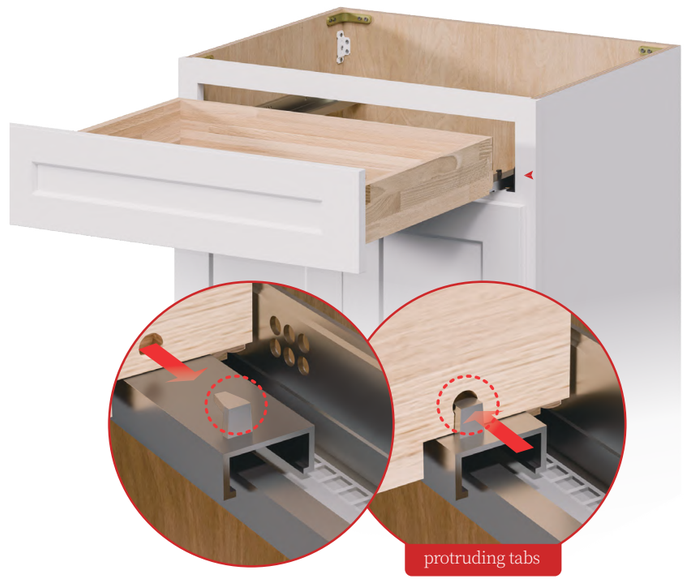

Step 7 Install DTC Drawer Slide(H10)

WY.N
Fully tightened cabinet body×1
Φ0.35*14mm Screw (H1) ×6
DTC Drawer Slide (H10) ×2

IMPT Please pay attention to the installation orientation of the left and right sides and the white base, aligning them with the reserved holes.

Step 8 Connect the drawer box to the cabinet

WY.N Fully tightened cabinet body×1 Assembled drawer box×1

IMPT Align the drawer box with the cabinet slide tracks and push it in until the protruding tabs securely snap into the holes.

Step 9 Install Shelf Supporters & Adjustable Shelves

WY.N
Fully assembled cabinet×1
Adjustable Shelf (f) ×1
Shelf Supporter (H8) ×4

IMPT All four shelf supports must be kept at the same height to ensure the shelf is level. The load capacity of each shelf shall not exceed 50 lbs.

Troubleshooting Tips

Common Issue	Solution
Brackets won't snap into place	Check bracket orientation from Step 1 & 2: ensure L-bracket vertical side faces outward, bow-bracket middle hole end faces inward.
Doors won't close evenly	Loosen hinge screws slightly, adjust door position, then re-tighten. Use the 6-way adjustment on DTC hinges for fine tuning.
Screws won't go in	Confirm you are using the correct screw for the step, and aligning with pre-drilled holes. Do not force screws into non-drilled areas.
Shelf is not level	Check that all 4 shelf supporters are inserted into the same height holes on left and right side panels.
