How to Use The KD Steel Stacking Chair 05

Before You Begin

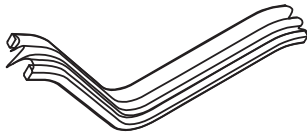

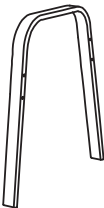

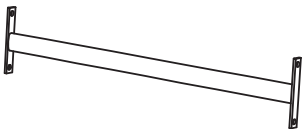

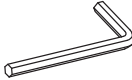

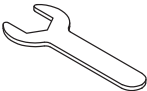

Instructions are supplied in this manual and contain all appropriate information for your product.

Review all instructions before you begin and during assembly, follow the step sequence carefully for correct results.

1. Please separate and identify all the parts, making sure you have all of the parts listed.
2. To avoid any scratch during assembly, please assemble on a soft mat or similar.
3. Please assemble step by step and follow the instruction.
4. Washers must be used.
5. Do not completely fasten each screw and nut until all the screws are properly fixed.
6. If you have an electric screw driver, you can use the electric screw driver instead of the allen key we provided, the electric screw driver helps you to shorten the assembly time.

If you have any questions about the **KD Steel Stacking Chair**, please feel free to contact us.

How To Assemble the KD Steel Stacking Chair

Step 1: Pull and flatten the seat fabric(L001).

NOTE: Make sure the seat fabric edge is close to the plastic part as much as possible.

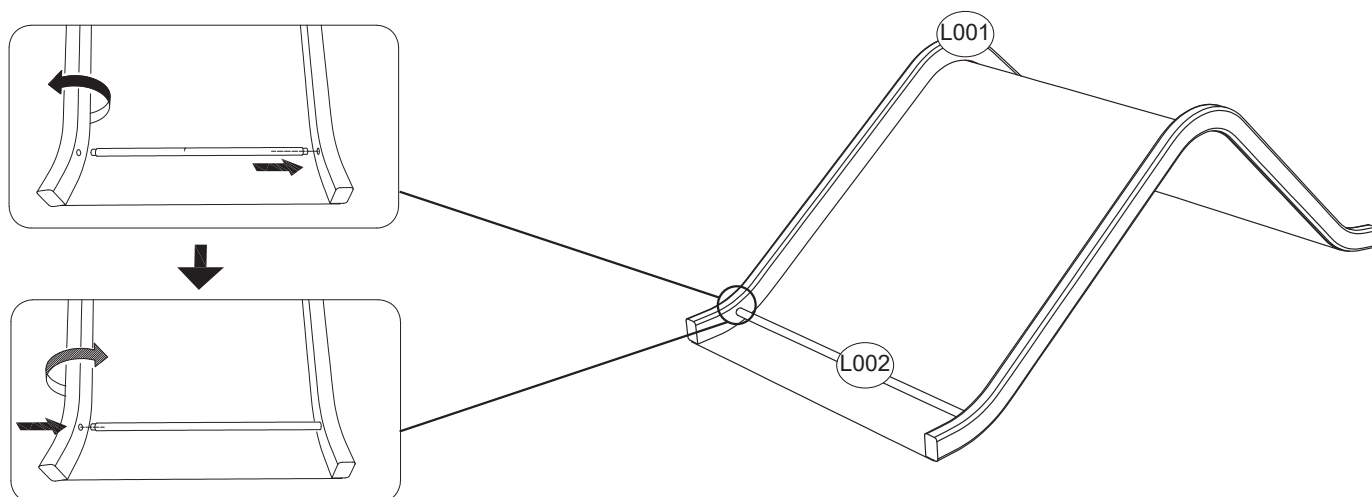

L001

x1

Step 2: Insert the back support rod (L002) into the hole on the right side bar of the seat fabric tube (L001). Hold the back support rod (L002) with one hand and grasp one side bar of the seat fabric tube (L001) with the other hand. Turn the seat fabric tube outward slightly to have enough space to insert the back support rod (L002) into hole. Hold the both sides of the seat fabric tube (L001), turn them slightly inward to make sure the back support rod (L002) was properly installed.

NOTE: Be careful not to pinch your fingers.

x1

Installation steps

Step 3:Secure the two support rods to the two chair legs with screws as shown in the figure.

NOTE:Each chair only needs to be installed first with the 4 holes where the support bar is closer to the floor.Tighten the screws to 50% tightness.Be careful not to pinch your fingers.

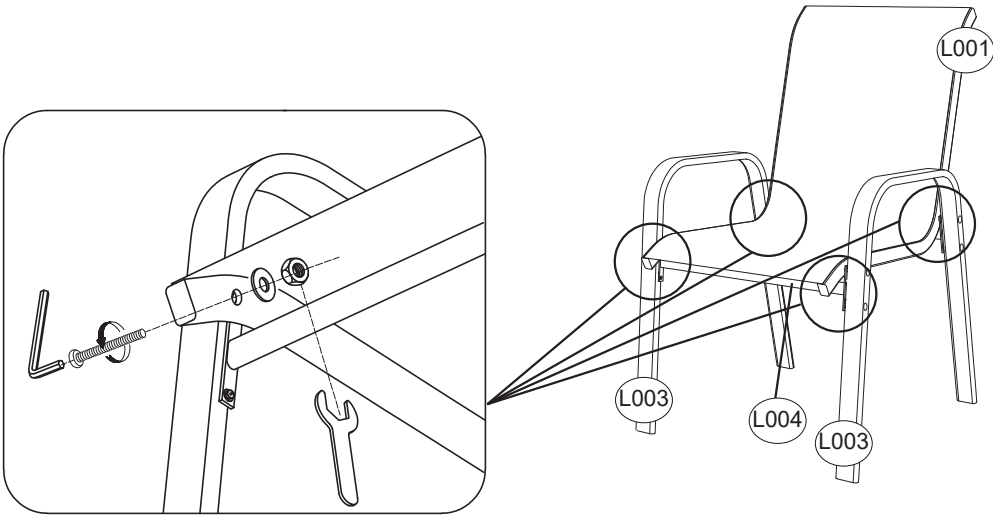

Makesure the label L003 is faceforward (front side) when install the two leg tubes.

L003		x2	L004		x2
E		x4	G		x4
			J		x4

Step 4:Attach the seat section installed in step 2 to the base section installed in step 3 with screws. Install one side of the fabric tube (L001) and the leg(L003) at first,screw on 20% only, and then install the other side, you need to buckle the seat tube (L001) and leg (L003) with appropriate force, so that the screws can be tight-ened smoothly.

NOTE:Tighten the screws to 50% tightness. Be careful not to pinch your fingers.
