

Kensington Tabletop Clock 645557 645558

TABLE CLOCK: The Kensington Table Clock has a high-gloss Rosewood Hall finish base and a glass bracket case to protect the chrome-finished pillars to compliment your home decor. The clock's movement makes a soft ticking noise without the use of chimes for a quieter environment.

DURABLE: This indoor modern clock is created to last. It has a sturdy frame to relieve stress in a busy household. With brass-finished feet and accents, this clock can be displayed in your kitchen, office, bedroom, living room, mantel, and more.

HIGH QUALITY: The classic design is an elegant home essential. Easily tell time with black Roman numerals and hands, brass second hand, a polished gold-tone bezel, silver, diamond-cut numeral ring to stand out over the brass-tone dial protected by an acrylic crystal.

MOVEMENT: It is powered by quartz movement, and requires one AA sized battery. The traditional Roman numerals feature IIII instead of IV.
