REVERSE TABLE LAMP, BLACK HIGH GLOSS/ CARRARA MARBLE

Impeccable materials meet artistry on the Reverse Table Lamp, now available in black high gloss and Carrara marble for a new take on Aleksandar Lazic's elegant design.

“By refining every aspect of the design, the final product becomes a function that you appreciate in your everyday life,” says the designer.

A perfectly balanced expression of geometric forms, the Reverse Table Lamp brings together 1970s Italian aesthetics, beautiful materials and characterful light. The lamp is fitted with a dim-to-warm LED light source and dimmer switch for complete lighting control
