1.

BUILD A 4 FT. WALL

Hold a 4ft. Board on the ground so it's standing on edge with the notched ends to the left and right. Slide a Tall Post down over one notched end of the Board. Next, slide another Tall Post over the other notched end. This forms a wall.

Repeat step one to complete a second wall.

2.

BUILD A FRAME

Place the walls parallel to each other and connect them into a rectangle with two 2ft. Boards. This forms the frame of the Garden Bed.

3.

ADD A SECOND AND THIRD BOARD TO ALL WALLS & ATTACH DECORATIVE CAPS

Add Boards, one at a time, directly on top of each existing Board in the Frame. Push the Boards down evenly between the tops of the Tall Posts. If needed, tap snugly into place with a rubber mallet. Attach each Decorative Cap to a Tall Post with a screwdriver and one Screw. We recommend drilling a pilot hole first for each Screw.

TO STACK GARDEN BEDS FOR MORE HEIGHT:

- Assemble the first Garden Bed without Decorative Caps, or remove Caps from a completed Bed.
- The Corner Posts are designed to be taller than the Boards, so Beds can be stacked securely.
- Slide a Board from the second Garden Bed into tops of the Corner Posts from the first Bed, to extend one wall upwards.
- Slide Corner Posts from the second Bed down on both ends of the Board to lock in place.
- Continue assembling the second Bed, sliding Boards and Posts into place on top of the first to complete another rectangle.
- Attach Decorative Caps to the tops of each Corner Post.
