	 ④×1		

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

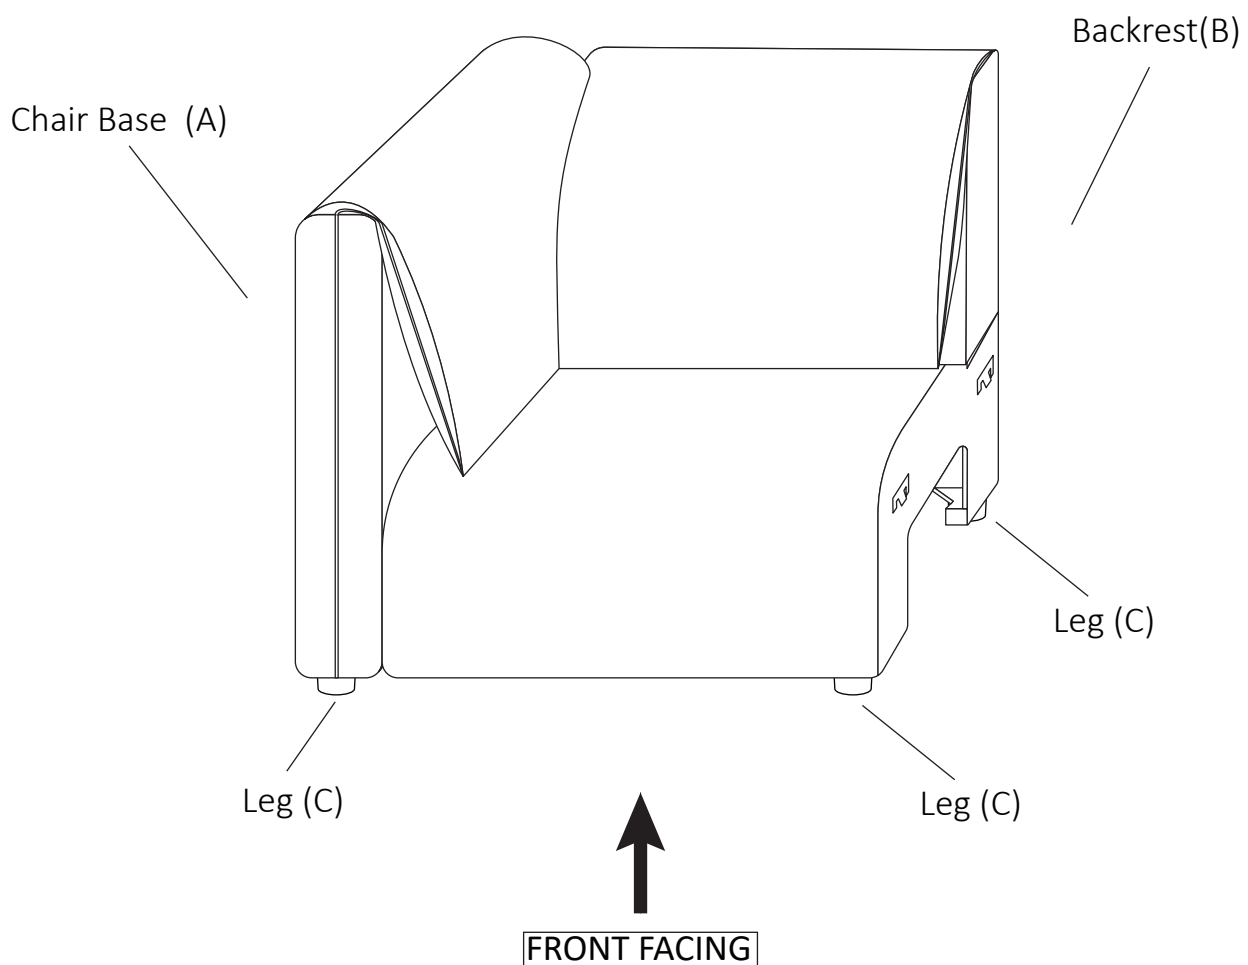

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

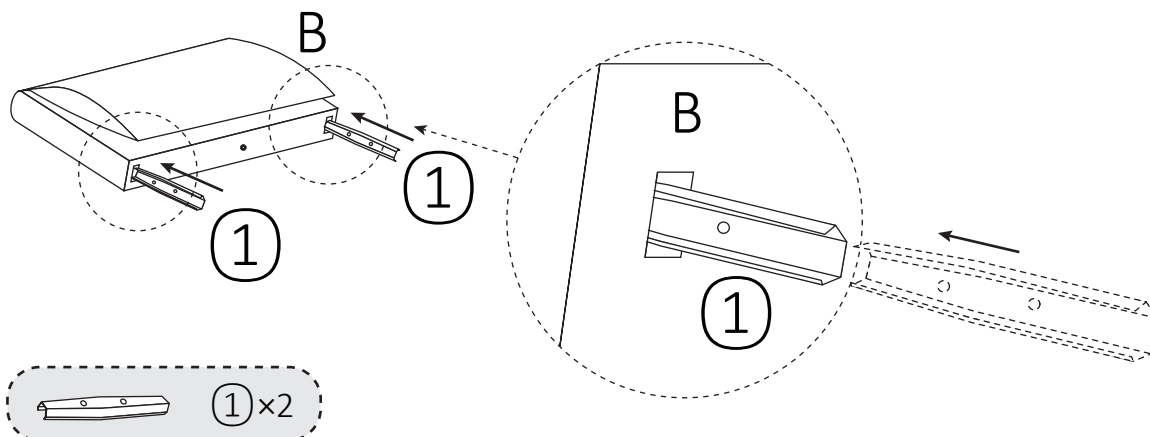

Assembly Steps

Overview

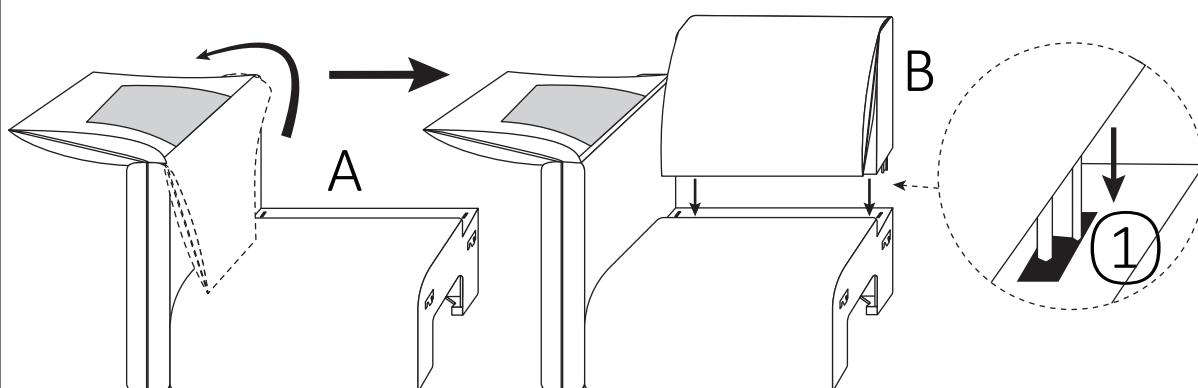

This Left-Arm Chair has multiple parts and may require up to 20 minutes to assemble. To give you an overview of the Left-Arm Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions herebelow to familiarise the parts and steps before assembly.

Step 1

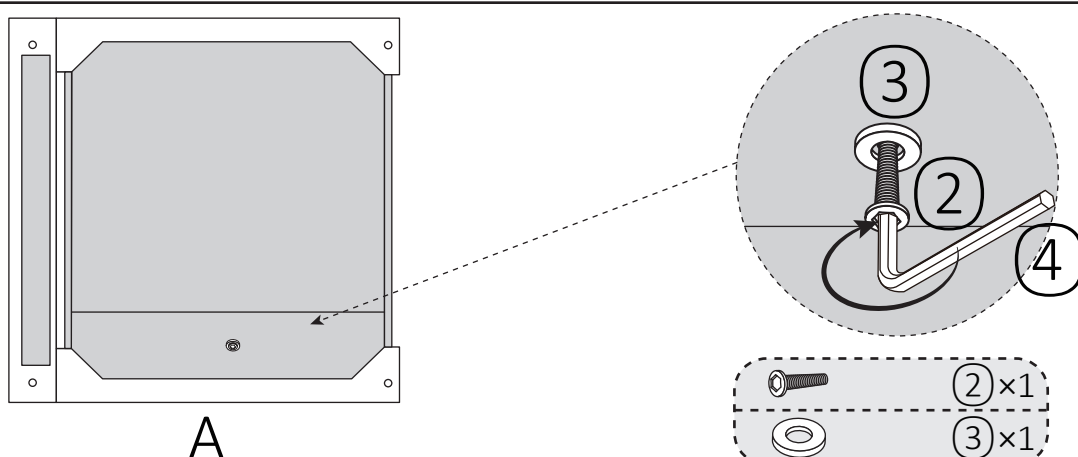

Install the Connector ((1)) into the Backrest (B) as shown, using significant force to ensure a secure fit without loosening.

Step 2

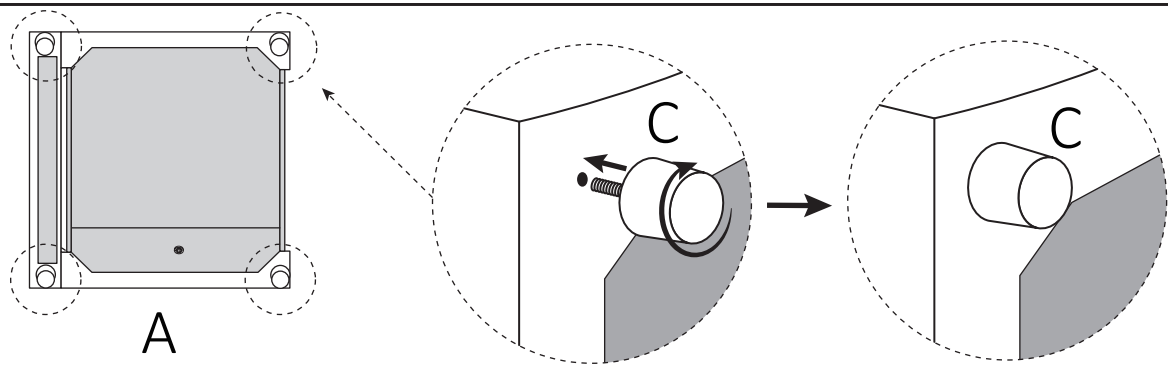

First, flip the armrest cushions of the Chair Base (A) outward. Then insert the Backrest (B) into the Chair Base (A) as shown in the diagram. Tap both sides of the top of the backrest to ensure it is securely installed.

Step 3

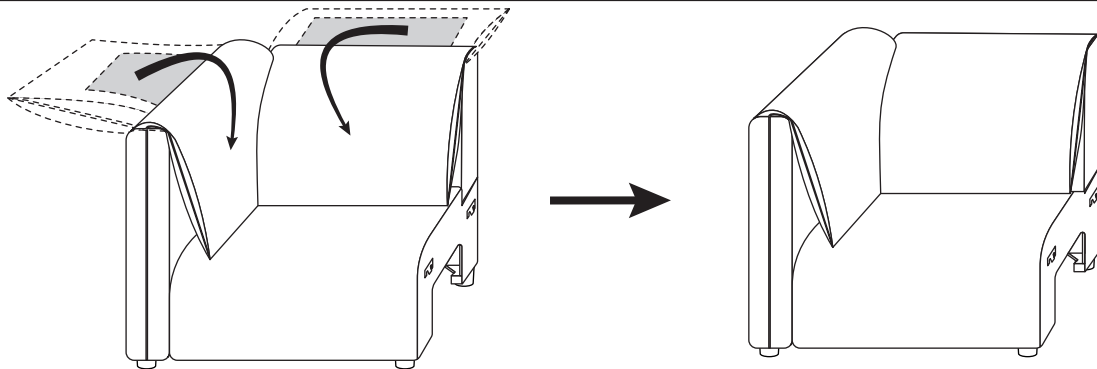

First, turn the Chair Base (A) upside down to expose the bottom, then, Locate the hole for the Backrest (B) installation on the bottom, last, Secure the connection using a Long Screw ((2)) and Flat Washer ((3)). Do not reorient the semi-finished product; proceed directly to the next installation step.

Step 4

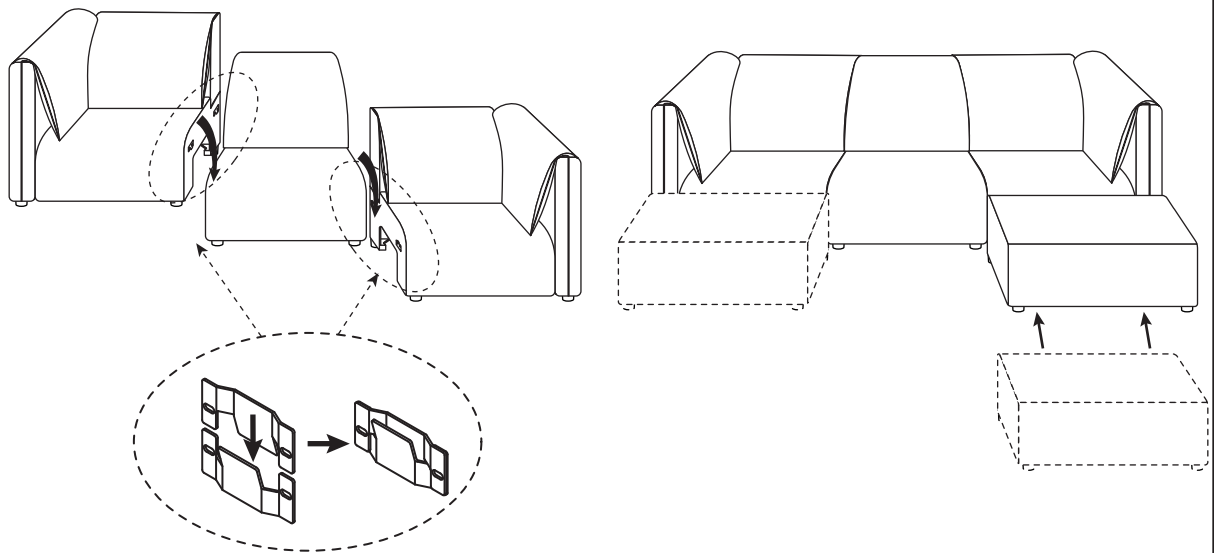

Install the Leg (C) onto Chair Base (A) as shown in the diagram.

Step 5

Straighten the semi-finished product from the previous step, check the condition of the armrest pad and backrest. If they are in the dashed-line state shown in the figure, first flip the backrest pad, then flip the armrest pad to use it properly. During the process, press the end to ensure it fits snugly against the backrest and armrest.

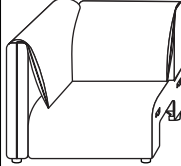

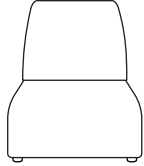

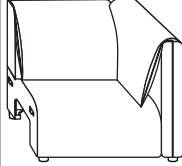

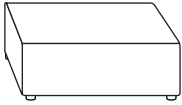

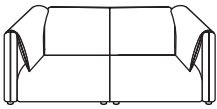

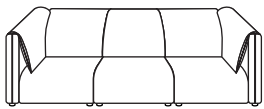

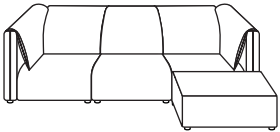

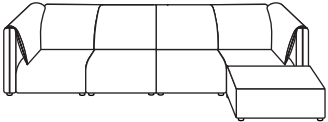

Step 6

Assemble the semi-finished product from the previous step by connecting it with the side tabs as shown in the figure. Ensure the front and rear edges of the seat body are aligned to keep the tabs directly aligned. During the pressing process, tap the edge of the seat surface to ensure proper installation. Finally, push the Ottoman to align with the left or right armrest edge to complete the installation.

Note: This is an optional step in case you want to connect all the chairs in the set together and should be performed before affixing the cushions.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
