**FAILURE TO FOLLOW THESE WARNINGS
WHEN IN USE COULD RESULT IN INJURY**

DO

- We suggest you spend a short time reading through the leaflet before you start
- When you are ready to start, make sure that you have the right tools, plenty of space and a clean, dry area for assembly.
- Unwrap all packing materials and place the components on a clean surface to protect them from damage. We recommend using the product packaging to protect your floor during assembly.
- Carefully check that you have all the parts before beginning assembly.
- Due to the size of this product, we recommend assembly in the room intended for use.
- Make sure the product is fully assembled as illustrated and that all connections are fully tightened before use.
- Wipe occasionally with a soft, damp cloth then buff dry with a soft clean dry cloth.
- The wood will mellow and change color over time. As a result, we recommend that ornaments and items placed on the surface are moved regularly for the first few months to prevent an uneven mellowing.
- Check all bolts and screws every 90 days. As necessary tighten if any are loose.
- Keep small parts and pieces away from children and pets until fully assembled.

- Do not drag or pull your furniture.
- Do not rub or scrub the surface when cleaning.
- Do not use silicone based furniture polish. Silicone in furniture polishes can break down the finish.

- Do not stand on the item or use as a step ladder.
