

PRODUCT NAME: Timbale

Please consult your electrician for hanging fixture and wiring.

The fixture is designed to dim with a standard Triac forward phase dimmer. Dimming levels will vary by dimmer.

Due to inrush current wattage should not exceed 150 watts of product for a 600 watt dimmer.

Warning! This fixture is supplied with an installed LED driver. These fixtures are dimmable using standard triac dimmer.

PRODUCTS ARE NOT INENDED
FOR COMMERCIAL USE.

IMPORTANT: Turn off the power at the main fuse or circuit breaker box before starting installation

Locate all hardware & components before discarding packaging

1.) Step.1: Remove mounting bracket from fixture and install to electrical box using screws. Mark where anchors at ends of bracket (A) meet the ceiling. Remove mounting bracket (A) from ceiling. Drill holes using $3/16'' \pm$ drill bit where marked. Install mounting bracket (A) to outlet box using screws and attaching anchors (C) to secure bracket at ends.

2.) Step.2: Wire fixture to wires in outlet box using wire nuts (D) provided. Copper wire is for Ground.

3.) Step.3: Adjust stem length to desired mounting height, and tighten to secure. Install fixture to bracket and tighten finials (F) on the canopy to secure. Lights at ends are adjustable.

Cleaning & Care:

Clean with soft cloth and a mild detergent. Do not use abrasive cleaner.

If wires are cut in the process of adjusting the height, please note the ceiling consist of red wire (live) and black wire (ground) that must be separated before re-joining with the driver output wires.

Pendants are wired in parrallel to the driver,as shown below:
