PRODUCTdescription

The LAVA^{lite} A-LINE-8M Commercial Propane Flame Patio Heater in Stainless-Steel. The R-LINE series includes upgraded features, hardware, and finishes. Upgraded Solid Steel & Aluminum 8ft. cylindrical structure and single-piece protective steel grills with cool to touch feature. The signature 3-foot adjustable **“Column of Flame”** provides 360-degrees of heat distribution and is encased by a weather proof Borosilicate glass tube. This unit produces **56,000**btus for up to 10 hours with Propane Tank to an area of 25 square feet. This unit does not include remote but features **Touch-to-Start electronic ignition** and Tilt Switch Auto-Shutoff for safe, simple, and efficient use. The patented snap to close door allows easy access to units' burner assembly. Available in premium finishes and additional accessory options makes this A-Line a need for your outdoor venue.
