1

First of all place the given marble top upside down on a clean surface and Keep the table slightly raised above the floor so that it is easy to flip the table after assembly. Now take the given marble base and place it over the marble in such a way that all the holes of base and marble top match as shown in image.

Now the tight the bolts with the giving spanner.

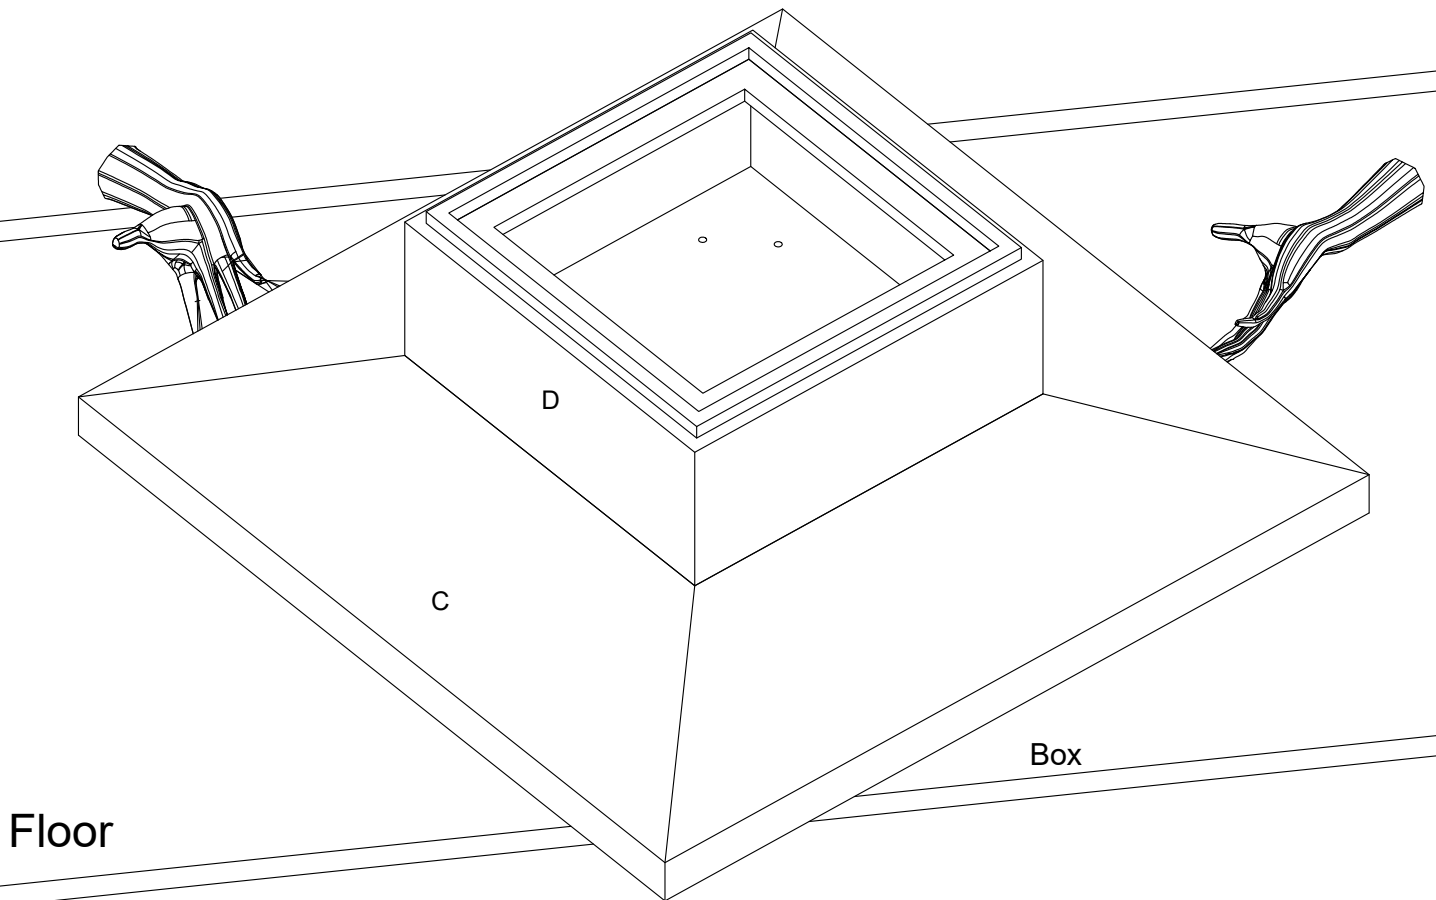

CAUTION : Please do not over tighten bolts / screw.

Adjust the Floor Levelers

Check for Stability – Place the furniture in its final position on a level surface. If it wobbles or doesn't sit evenly, the floor levelers need adjusting.

Locate the Levelers – These are small adjustable feet found at the bottom corners of your furniture.

Adjust as Needed – Using your hand or a wrench, turn the levelers clockwise to raise or counterclockwise to lower the furniture. Make small adjustments and check stability after each turn.
