

# Assembly Instructions

Caution: You must read this before you proceed

## Ottoman

### Part List

Label	Picture	Description	QTY
A		Seat Board	1
B		Legs	2
C		Bottom Panel	1

### Hardware

Label	Picture	Description	QTY
①		Bolt (M6*15mm)	5
②		Bolt (M6*25mm)	5
③		Washer	10
④		Allen Key	1

# Assembly Preparation

Before  
Beginning  
Assembly:

- Read instructions, cover to cover-

- Have 2 adults on hand for assembly-

- Do not assemble on flooring or carpet-

- Assemble on a clean non-marring surface (packing foam)-

- Save all packaging until finished-

## Overview

Seat Board (A)

This Ottoman has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Ottoman parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

## Assembly Steps

### Step 1

Open the carton and place all the parts onto a clean, non-marring surface. Attach Legs(B) to Seat Board(A) using Bolts(①) and Washers(③) with Allen Key(④).

**Do not fully tighten the Bolts.**

**Note: Occasionally some of the PE wicker will cover the Bolt points, preventing easy assembly, the PE wicker should not be cut but moved away from the mounting positions.**

### Step 2

Align Bottom Panel(C) between Legs(B).

Attach Bottom Panel(C) to Legs(B) using Bolts(②) and Washers(③) with Allen Key(④) as shown above.

**Do not fully tighten the Bolts.**

### Step 3

Stand the Ottoman up.

Exert pressure floorwards, onto the Ottoman with both your hands.

This pressure will help the Legs and Ottoman Top reach full alignment status.

Check for wobbles on a LEVEL surface.

If no wobbles are found proceed to tighten the Bolts in a sequential manner, until evenly secured.

When tightening the Bolts tighten sequentially.

Do not tighten any Bolt fully and then move on towards the next one.

If there are still wobbles, loosen the Bolts and execute the same above process.

Your Ottoman is ready for use.

**This Ottoman can only be used on a flat, level surface.**

## Care & Maintenance

-   ● Do not put hot items directly on furniture surface
  -   ● Do not clean furniture with harsh cleansers or polish.
  -   ● To obtain the longest lifespan of your outdoor products, minimizing exposure to direct sunlight is recommended.
  -   ● Children should not climb or jump on the furniture.
  -   ● Do not write on furniture without a padded barrier to protect the surface.
  -   ● To obtain the longest lifespan of your outdoor products, avoid extended and lengthy exposure to rain, snow, and direct sunshine. Whenever possible cover the product and /or place under patio or awnings.
  -   ● Not for commercial use. For residential use only .
  -   ● Stains may be removed with mild soap solution and damp cloth.
  -   ● Keep away from sources of ignition.
- 
-   ● Dust and pick-up spills using a clean, non-colored, lint-free cloth.

### Questions & Answers about Proposition 65

#### • What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

#### • What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

#### • What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

#### • Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at [P65.Questions@oehha.ca.gov](mailto:P65.Questions@oehha.ca.gov), or by phone at (916) 445-6900.
