FIRE RATED
FM APPROVED

Safety is paramount, and fire poses a significant risk to life and property. This HLS Commercial product has been manufactured with fire-retardant materials to mitigate that risk and has been tested and confirmed by FM Approvals as meeting or exceeding their rigorous standards.

FM Approvals® tested and certified **HLS Commercial 16 Gallon Stainless Steel Step Pedal Waste Receptacle** provides the compliance, protection, and style you need and want in your facilities. Bin fires are quickly extinguished with the special fire-retardant liner material and a tight lid design that restricts airflow to the interior of the bin, starving a flame of necessary oxygen.
