D, F, G

1.

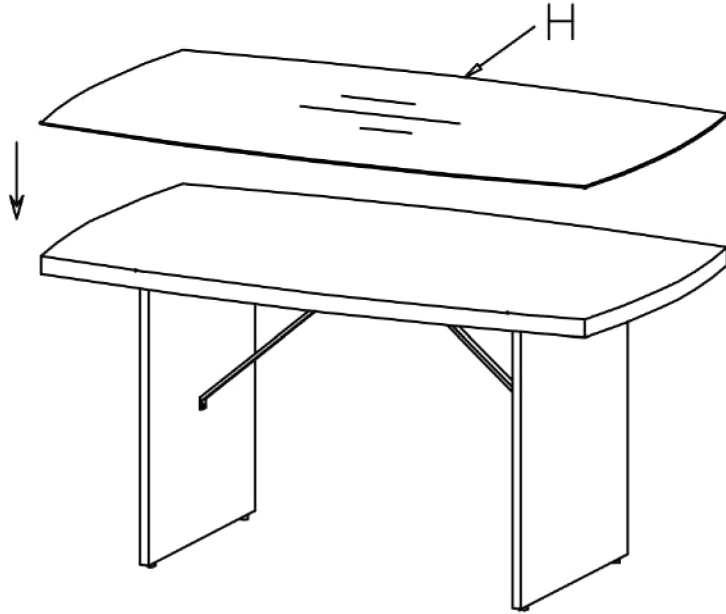

Attach both table legs (B) to the table top (A) – ensuring that the holes in the centre of the table legs face inwards. Align the screw brackets of the table legs (B) with the holes in the base of the table top (A) as demonstrated in the image above. For each bracket insert screw (D) through a washer (F) through the table leg screw bracket and into the table top. Loosely tighten each of the screws using the Allen key (G).

2.

Attach support beam (C) to the table frame. Insert screw (D) through a washer (F) through the hole in the middle of the beam and into the hole in the centre of the table. Loosely tighten with Allen key (G). Then insert screws (D) through a washer, into the screw holes at each side of the beam (C) and into the screw holes in the centre of each table leg. Loosely tighten with Allen key (G).

Fully tighten all of the screws used for the assembly of the table using Allen key (G).

3.

Turn the table frame upright and place the tempered glass (H) over the top as demonstrated in the image to the left.
