ASSEMBLING THE MAT

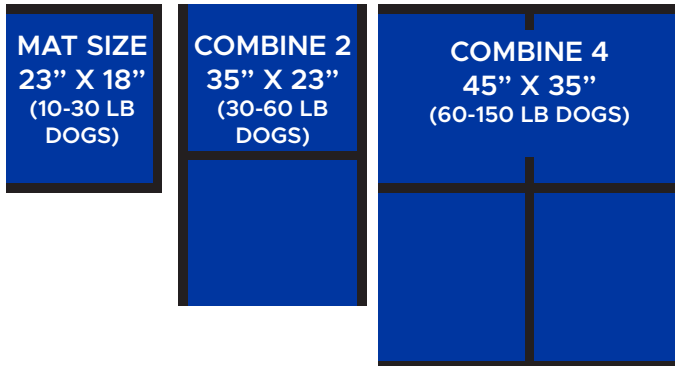

LOGO-SIDE UP

1. WATERBED CUSHION 2. FLEXIFREEZE ICE SHEET 3. FOAM INSULATION

1. Place **FlexiFreeze®** Ice Sheet in freezer overnight.
2. Place the **WATERBED CUSHION** in the *top section* of the cooling mat and close with the velcro.
3. Place the **FOAM INSULATION** in the *bottom section* and close with the velcro.
4. When ready to use, place frozen **FLEXIFREEZE® ICE SHEET** in *center section* of the mat, wrap flap around to bottom of mat and close with velcro.

FLEXIBLE, MODULAR DESIGN:

With snaps on three sides, multiple mats can be combined to fit different spaces and cool dogs of all sizes.

FOR BEST USE:

1. Store cooling mat components in a cool, dry place.
2. Make sure that all components are dry for storage as mold can form on items stored when damp.
3. Store **FlexiFreeze®** Ice Sheet in freezer so that it is ready to go when needed.
4. Always have extra **FlexiFreeze®** Ice Sheets on hand.

ATTENTION:

FlexiFreeze® Ice Sheets are filled with water. Do not let pet chew on any part of this mat. Small parts created by chewing could cause intestinal blockage if ingested. Inspect regularly and replace if any part becomes damaged.

WASHING INSTRUCTIONS:

Hydro Cooling Mat: Remove waterbed cushion, ice sheet, and foam insert from mat. Machine wash and tumble dry on delicate cycles.

Other components: Do not machine wash waterbed cushion, ice sheet, or insulation insert. Wipe clean with warm, damp, soapy cloth, and allow to dry fully before storage.

HELPFUL TIP:

Dogs will need to learn to go onto the mat. Try placing a treat on the mat each time you put it out to train the dog to lie down on it and receive the cooling benefit. With time, dogs will learn to seek it themselves.
