Charging Instructions

- Connect the included USB-Type C cable to the lamp.
- Plug the other end into a 5V USB power source (adapter, power bank, or computer).
- When charging, the lamp can be light up.
- The indicator lights up red while charging and turns green once fully charged.
- Charge fully before first use.

Touch Control Button

Tap once → 25% brightness

Tap twice → 50% brightness

Tap three times — 100% brightness

Tap again — Turn OFF

Safety Instructions

- Indoor use only. Do not use in bathrooms or humid environments.
- Not suitable for children under 14 years old.
- Do not disassemble or modify the product.
- Keep away from fire, water, and extreme temperatures.
- If the cable is damaged, stop using immediately.
- Only use certified 5V USB power sources.

Troubleshooting

Issue	Possible Cause	Solution
Lamp not turning on	Battery low	Recharge the lamp
Light is dim	Low brightness mode	Tap to increase brightness
Not charging	Cable/Adapter issue	Try another USB cable or adapter
No response	System glitch	Disconnect and restart charging

Important Notes

- This product uses a non-replaceable LED module.
- Slight brightness variation is normal.
- Battery performance may decrease over time.
- If the lampshade is damaged or you encounter any issues, please contact our customer support team. We will resolve the problem promptly.
