

## WARNING

\*This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug, if it still does not fit, contact a qualified electrician.

\*Never use with an extension cord unless the plug can be fully inserted. Do not attempt to defeat this safety feature.

## CARE AND MAINTENANCE

\*Unplug lamps before using any cleaning solutions. Dust shades with a feather duster or with an appropriate vacuum-brush attachment. Wipe with a soft, dry cloth and clean lamp bases with the methods appropriate to the material. Avoid the use of chemicals and household cleaners as they may damage the finish.

 <p>The diagram illustrates the assembly process in four stages. Stage A shows the base with a power cord being plugged into a wall outlet. Stage B shows the lamp stem being attached to the base. Stage C shows the lamp shade being placed onto the stem. Stage D shows a light bulb being inserted into the socket at the top of the stem. Labels A, B, C, and D are connected to their respective parts by lines.</p>	 <p>The diagram shows the fully assembled lamp. It consists of a rectangular base with a vertical stem and a trapezoidal shade. A USB cable is plugged into a port on the side of the base, and a small light bulb is attached to the end of the cable. A label 'USB Port' points to the port on the base.</p>
<p><b>Step 1:</b> Put the shade(C) on the Socket(B), Insert the Bulb (D) into the Socket (B).</p>	<p><b>Step 2:</b> Step2: Put the light on a level surface to check if everything is stable. There is a USB port on the side of bottom base, the USB port enables to charge mobile phones, the charging function is available whether the lamp is on or off.</p>
