## BEFORE YOU GET STARTED

When working with electrical wiring, follow these safety instructions to prevent injury or damage:

1. Turn off the power: Before starting any work, turn off the power to the area you will be working in.
2. Use appropriate tools: Only use tools designed for electrical work and in good condition.
3. Wear protective gear: Wear safety glasses, gloves, and other protective gear as necessary.
4. Test for power: Use a non-contact voltage tester to check for electrical current before touching any wires.
5. Avoid wet conditions: Do not work with electrical wiring in wet or damp conditions.
6. Keep a safe distance: Stay away from exposed wires or electrical components.
7. Seek professional help: Consult a qualified electrician if you are unsure about any aspect of electrical wiring or encounter any problems.

## WARNING!

1. Do not use the power supply beyond the specified range (110V, 60Hz).
2. Avoid scratching the surface and wires of the light during installation.
3. Do not install the light outdoors.
4. The light should not be close to corrosive chemical objects or gases.
5. It should not be washed with water. It can only be wiped with a clean soft cloth.
