Base Type: E12

Light Source Included: NO

Voltage: 120VAC

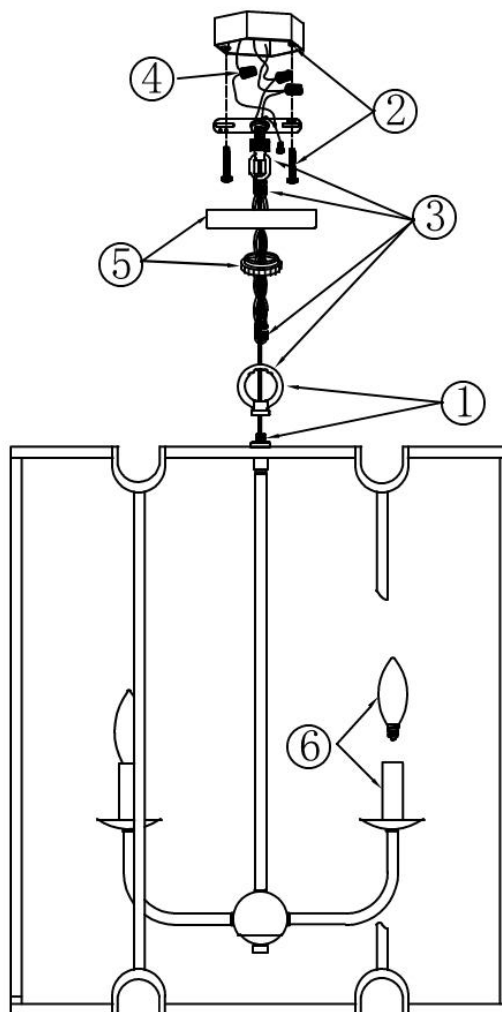

Wattage: 60W

Package includes

1 x Chandelier Light

1 x Accessories Kit

1 x User's Manual

Installation Instructions

1. Screw the hanging ring into the threaded pipe at the top of the light fixture.
2. Attach the mounting plate to the electrical junction box using supplied mounting screws.
3. Attach one end of the buckle to the hanging ring at the upper of the lamp body. Attach the other end of the buckle to the crystal hanging ring. Close the buckle to lock it in place. Thread the fixture power cord through the upper hanging ring, the chain (thread through approximately every 3 links), the outer ring of the crystal hanging ring, the crystal hanging ring itself, and the canopy. Tighten the cord. Gently slide the outer ring of the crystal hanging ring and the canopy onto the chain.
4. Connect the main wire (live wire and neutral wire) to the corresponding reserved wires in the junction box by using the wiring caps. Be careful not to expose the wire to prevent leakage. Connect the ground wire to the household ground wire, and fasten both the fixture ground wire and the external ground wire to the mounting plate using the green ground screw.
5. Slide the ceiling plate through the crystal hanging ring so that it lies flush against the ceiling, then tighten the outer ring of the crystal hanging ring to secure it.
6. Assemble the bulbs (not included).
7. Turn on the power and check if the light bulb works properly. Installation is complete.

Note: please use this product accordingly to its intended purpose, do not retrofit or remodeling the product. The warranty does not cover if the failure is caused by the third party product, or natural disasters.
