- 3) Don't install the lighting fixture under moist condition.
- 4) Please switch off the power when you cleaning the lighting fixture.
- 5) Keep away from acidic & corrosive material.

# Installation instructions for Metal mount

This job will go easier with two people, because the light needs support during assembly, and it helps having somebody to read the directions. I am referring to the acrylic pieces "the petals" and the round metal thing as "the light fixture metal plate."

<p>Threading the wire through to the double ended metal tube and Install two tubes to the the petal.</p>	<p>20pcs nuts 20pcs lock washers</p>	<p>The longer ended: install to the light fixture metal plate 5cm double ended metal tube The shorter ended: install to the petals</p>	<p>The longer ended: install to the light fixture metal plate 7cm double ended metal tube The shorter ended: install to the petals</p>
<p>Install 20 double ended metal tubes to the petals</p>			
<p>Fasten the first petal (use 5CM tubes) to the light fixture metal plate with a lock washer and a nut. The position show on the picture. It will look very flat, not 3D. Notice: Place the tubes of one petal into corresponding holes on the edge of the round metal fixture</p>	<p>Fasten the second petal (use 5CM tubes) to the light fixture metal plate with a lock washer and a nut. The position show on the picture. It will look very flat, not 3D. Notice: Place the tubes of one petal into corresponding holes on the edge of the round metal fixture</p>		
<p>Fasten the third to the seventh petals (use 5CM tubes) to the light fixture metal plate with a lock washer and a nut. The position show on the picture. It will look very flat, not 3D. Notice: Place the tubes of one petal into corresponding holes on the edge of the round metal fixture</p>	<p>Fasten the eighth to tenth petals (use 7CM tubes) to the light fixture metal plate with a lock washer and a nut. The position show on the picture. It will look very flat, not 3D. Notice: Place the tubes of one petal into corresponding holes on the middle of the round metal fixture</p>		
<p>5: First: Very carefully plug the 10 tiny little plugs to the control block, any hole can be plugged. Second: after finishing install the light fixture you can install it to your ceiling.</p> <p>Notice: The black wire (or brown wire) is connect to fire wire (L): The white wire (or blue wire) is connect to neutral wire (N)</p>	<p>Fix the light fixture to the metal mount on the ceiling.</p>
