Before installing this product, please disconnect the power supply, determine the installation method and the load-bearing capacity of the wall. We recommend installation by professional electrician. Tip: Please follow the instructions to install this product, don't DIY install it.

Installation Steps:

1. Connect the straight tube and junction box to the lamp body.
2. Connect the wire of the lamp holder to the wire of the lamp body through the terminal.
3. When the wires are connected, lock the lid and the joint together
4. After locking the five lamp bodies, lock them with the connector and connect the lamp bodies with a straight pipe.
5. According to the hole position of the hanging plate drill holes in the wall install the expansion rubber plug and then fix the hanging plate on the wall with screws.
6. Insert the wire into connecting and screw it up. (L=Positive N=Negative, E=Earth wire)
7. After assembling the lamp body, arrange the power cord; the two screws of the hanging plate pass through the two side holes of the suction top plate, and lock it with the plum blossom grain.
8. Finally, put the glass on the lamp saucer.
