STEP 11 The hocks need to be attached to the inside of the frame

Tips: To prevent separation at the joint, the tape can be wrapped around the joint.

- 1-Random delivery of new and old remote controls.
- 2-There may be a slight color variation between the remote control and the light emitted from the strip.
- 3-LED light strips come with lifetime warranty simply send us a message through customer service, and we will deliver the product to your home promptly and unconditionally

Please scan the QR code on the manual/controller and install the application.

Step1: Please make sure that Bluetooth is enabled on your device

Step2: The LED light will automatically connect to the APP

Quick Start Guide for LED Light System

Step 1: Powering On

Locate the Control Box on the connecting cable between the headboard light strip and the power adapter. Press the universal power symbol button to toggle the lights on or off. This button controls both the activation and deactivation of the light system, allowing you to easily manage the lighting at your convenience.

Step 2: Adjusting Modes

Press the Mode (M) Button on the control box to toggle between the lighting modes. If the lights pulse on and off, do not worry; this is the 'Breathing Mode,' which is designed for a rhythmic illumination effect.

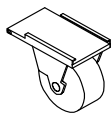

Step 3: Activating the Remote Control

Remove the pull-tab from the battery compartment of the remote control to activate it. This tab is commonly used in electronics to prevent battery drain during storage.

Important Notes:

- 1.If the lights are off upon arrival, they may be in the 'Off' position from testing. Simply press the power button to activate.
- 2.The 'Breathing Mode' may initially surprise new users, but it is a standard feature intended to enhance the ambiance.
- 3.Ensure the pull-tab is fully removed for the remote to function properly.
