Caution: Please read instructions thoroughly before unpacking assembly parts. Sharp, exposed staple tips can cause injury, therefore, for your protection, please remove any exposed staples used in packing.

1. We recommend that you should assemble this product with the assistance of another person; this will make assembly easier, and will help to eliminate damages to the product or injury to persons during assembly.
2. Be sure to check all packing materials carefully for small parts that may have come loose inside the carton during shipment.
3. Please do not over tighten screws or bolts.
4. Please put all parts on a non-abrasive floor before assembly, and follow the assembly steps to assemble your newly purchased product correctly and efficiently.

2		SMALL FLAT WASHER □ 1/4"	10
3		SMALL SPRING WASHER □ 1/4"	10
4		BOLT □ 1/4" x 1-5/8"L	2
5		BOLT □ 1/4" x 2-3/8"L	4
6		HEX KEY	1

Assembly instructions

Side Chair

Page 2 of 2

Step 1. Unpack carton and place all parts on a non-abrasive floor.

Step 2. Remove plastic cover from wood seat (B)

Step 3. Attach the chair back frame (A) to the wood seat frame (B), flat washers (2), spring washers (3) and bolts (4). Hand tightens bolt

Attach the chair back frame (A) to the wood seat frame (B) by using flat washers (2), spring washers (3) and bolts (1) thru the pre-drilled holes in the rear corner blocks of the wood seat frame and into the chair back frame (A). Apply gentle downward pressure on the seat. The step eliminates wobble and ensures chair will be level. Hand tightens bolts securely.

Step 4. Attach front legs (C) to the corner blocks of the wood seat frame (B) by using flat washers (2), spring washers (3) and nuts (5) thru the pre-drilled holes in the front corner blocks of the wood seat frame. Then hand tightens all nuts securely. Most floors have slight irregularities that can effect chair leveling. If your chair is uneven when placed in its desired location, perform the following step: 1. Loosen front legs. 2. Extend both front legs downward to their fullest length. 3. Gently push downward on the front of seat until all four legs rest on floor. 4. Once the chair is level tighten nuts.

Step 5. Securely tighten bolts (1), (4) and nuts by using Hex key (6)

STEP 3

This step requires installation of four bolts

STEP 4

This step requires installation of four nuts and four screws
