BEFORE STARTING

Before Using Product

- Read each step carefully before starting. It is very important that each step is performed in the correct order. If these steps are not followed in sequence, assembly difficulties will occur.

- Make sure all parts are included. Most board parts are labeled or stamped on the raw edge.

- Prepare a flat and Philips screwdriver (not included)
A Power Screwdriver is recommended.

- Work in a spacious area and near where the unit will be used, preferably on a carpet, or use a piece of the cardboard packaging to protect your floor and product.

- For a smooth assembly process, we suggest you keep a lite tightness for all the screws during assembly. After the whole product is assembled, firmly tighten all the screws.

! WARNING :

- Do not allow children to climb on unit
- Serious or fatal crushing injuries can occur from furniture tip-over. To prevent this furniture from tipping over, it must be permanently fixed to the wall. Fixing devices for the wall are not included since different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home. For advice on suitable fixing systems, contact your local specialized dealer

1.What should I do when I received a defected item?

Please feel free to contact VINGLI customer service via the link where you purchased this item with your order ID, pictures of the defective areas to us. We are eager to help you to make it right.

2.Is it easy to put the screws to the panels?

Yes. As long as you follow the instruction and use the correct screws and put it in the correct holes, it is easy to screw it into pre-drilled holes.

3.What should I do if I have a problem with the drawers not closing flush?

The problem with the drawers not closing flush is usually caused by the assembly of the drawer slides.Here are the solutions as below:

1)Please check whether the slide rail is damaged,for example,the ball of the slide rail has fallen out,if so,please ask us for replacements of the drawer slides;

2)Refer to the assembly manual to check if the holes for the slide rail are assembled correctly.If there is no problem with the assembly,but the slide rail is stuck in the process of pushing in,please release the entire drawer as you did the first time you removed the drawer slides,and then push it back in again.

Any query,please contact us directly.
