

# Dining Chair Light Installation Manual

## 1. Parts List

This product includes two types of fixing nails with different functions. Please confirm the accessories before installation and do not mix them up.

**Round Head Nails × 2:** For fixing on the reserved holes of the chair back

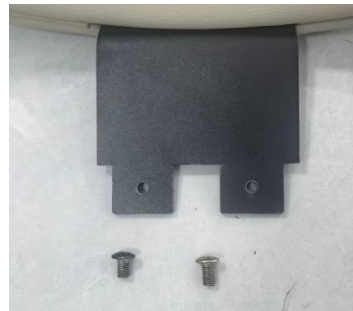

**Sharp Point Nails × 4:** For connecting and fixing the light feet and seat board

## 2. Installation Steps (with Simple Black & White Diagrams)

### Step 1: Install round head nails on chair back

Align the 2 round head nails with the reserved holes on the dining chair back, insert vertically and tap gently to ensure firm installation without looseness.

**Simple Black & White Diagram:** Chair back structure with 2 marked mounting holes for round head nails.

### Step 2: Fix light feet to the seat board

Align the light feet with the mounting holes on the seat board. Insert 4 sharp point nails vertically into the connecting positions and tap gently to fasten the light feet tightly. Ensure the light assembly is stable and offset-free.

**Simple Black & White Diagram:** Assembly structure of seat board and light feet with 4 marked fixing positions for sharp point nails.
