1 Firststep:Takeouttopplate

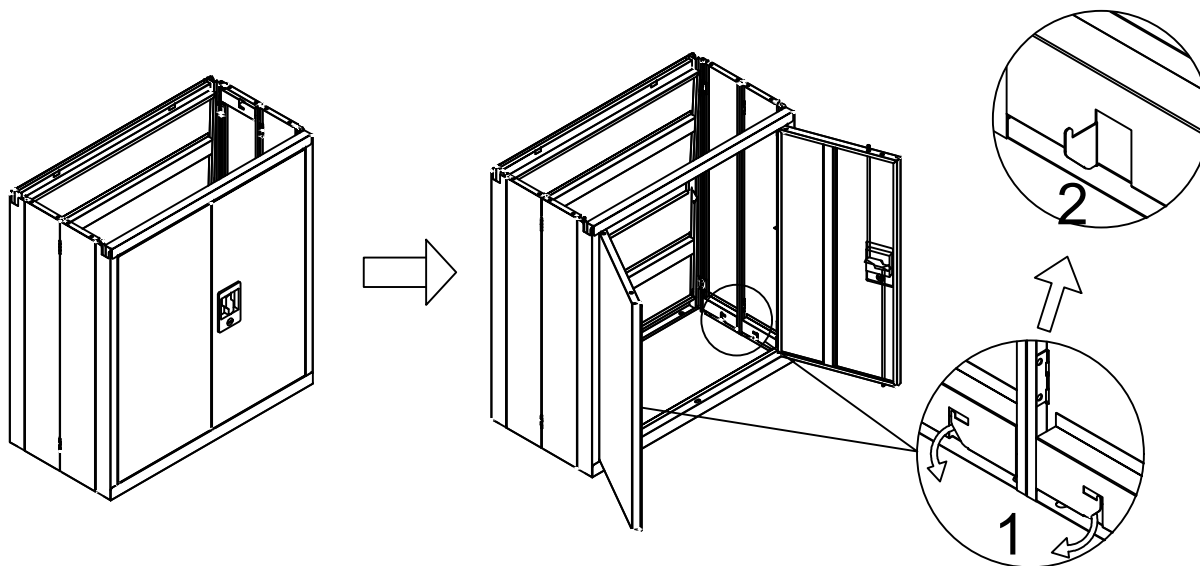

Openthecabinetbodyfrombothsieds,thentaketopplateout.

2

Second step: Fixation of cabinet

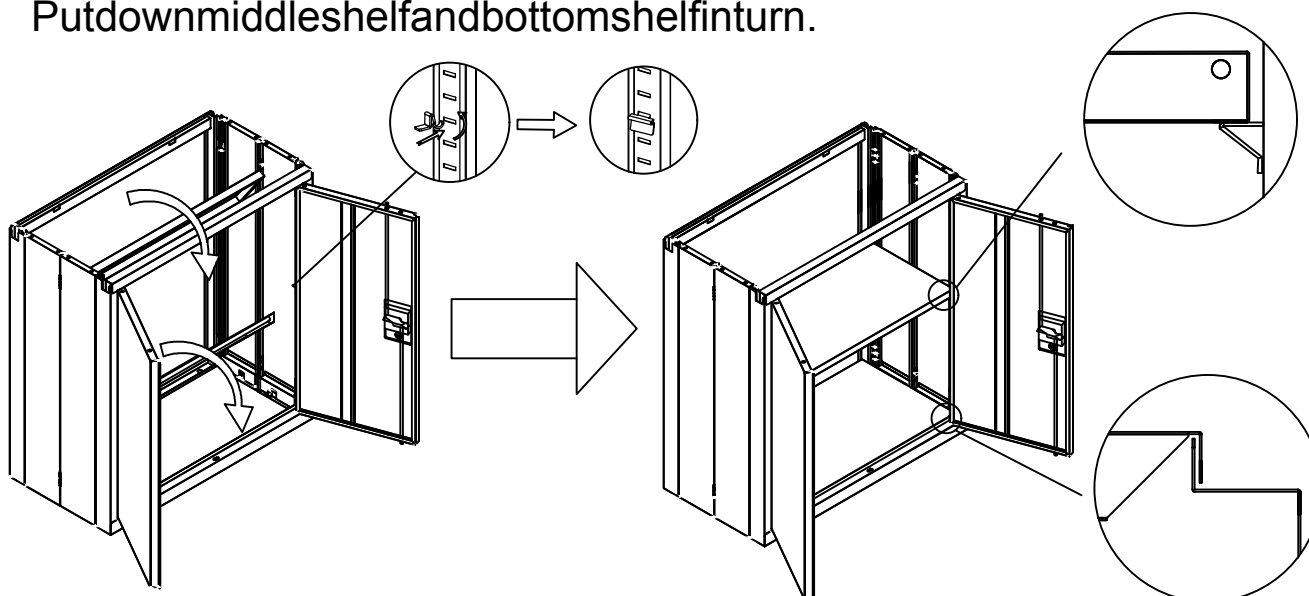

Bend all the buckles at this position (both sides) to fix cabinet body.
(Please notice that the cabinet won't be folded after this step)

3

Third step: Installation of middle and bottom shelves

Put down middle shelf and bottom shelf in turn.

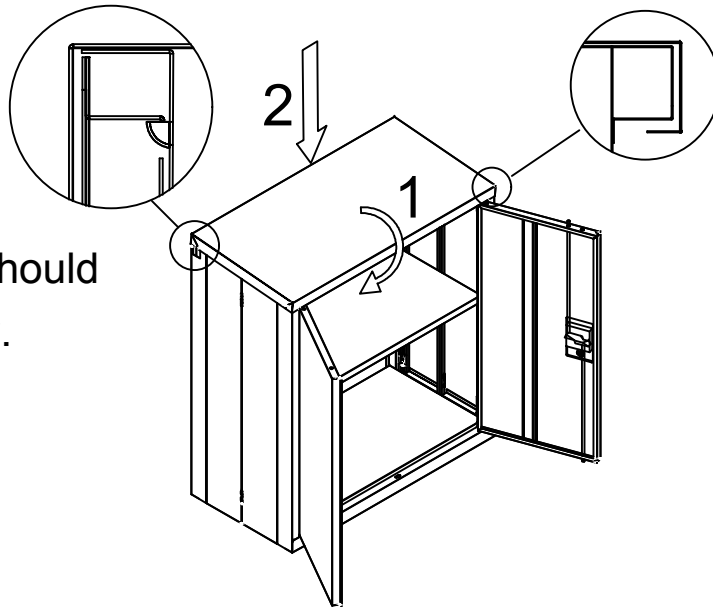

Please ensure the contact positions are consistent with drawing.

4

Forthstep: Installation of top plate

Please ensure the right position of front part first, then press back part to fix top plate well.

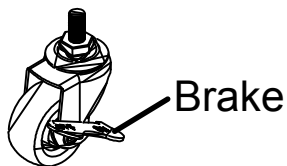

The rear buckles should be clamped tightly.

5

Fifth step: Installation of wheels

The wheels with brakes are on the front.

D-2

E-2

The wheels without brakes are on the back.
