

This exploded view diagram illustrates the components of a kitchen faucet assembly, numbered 1 through 36. The main vertical assembly includes the faucet body (12), a curved spout (9), and a base (20). The spout is connected to a cartridge (11) and a handle (18) via a lever (13). The handle is mounted on a base plate (18) with a screw (16) and a pin (17). The base plate is secured to the faucet body with a nut (14) and a washer (15). The faucet body is mounted to a sink (22) with a mounting plate (23) and a bracket (24). The base plate is secured to the faucet body with a nut (25) and a washer (26). The faucet body is connected to a water supply line (27) via a nut (28) and a washer (29). The faucet body is also connected to a hot water supply line (30) via a nut (31) and a washer (32). The faucet body is connected to a cold water supply line (33) via a nut (34) and a washer (35). The faucet body is connected to a hot water supply line (36) via a nut (37) and a washer (38).
