## Strokes of Viridian 1

D2808S56152-4704

Strokes of Viridian 1 is a remarkable landscape painted in an abstract style. Outlined in darker tones of cool grey, slate, and steel, the central focus is given to a narrow strip of light that brilliantly illuminates the sky. Textural brushstrokes in a palette of white smoke and light grey give the painting a serene outlook against a stormy framing. Along the horizon, a curving onyx line is suggestive of moving waters. At the forefront, abstracted forms complete this magnificent composition. Part of the carefully curated ART by TA collection, Strokes of Viridian 1 invites the viewer into a moment of peaceful contemplation. A beautiful companion piece to Strokes of Viridian 2.
