

## Installation & Assembly

|                                                                                 |   |   |       |
|---------------------------------------------------------------------------------|---|---|-------|
|  | A | 1 | 4mm   |
|  | B | 4 | M6*14 |

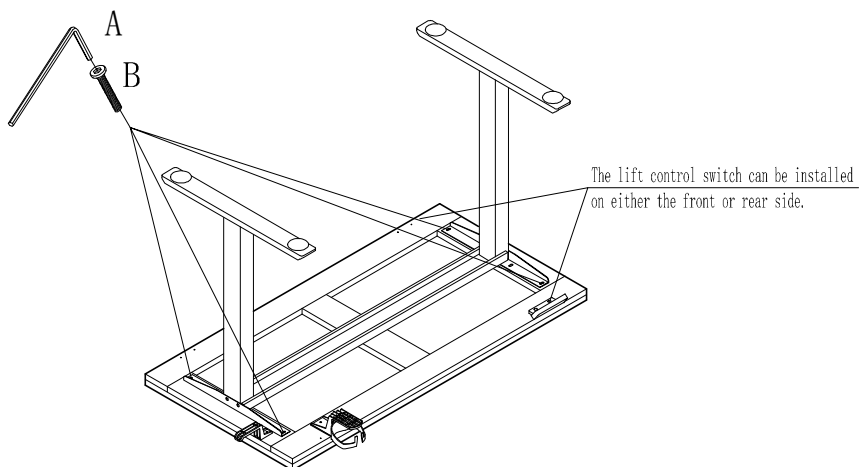

Step 1: Install the lifting frame first. (Place a soft material underneath to prevent scratches.)

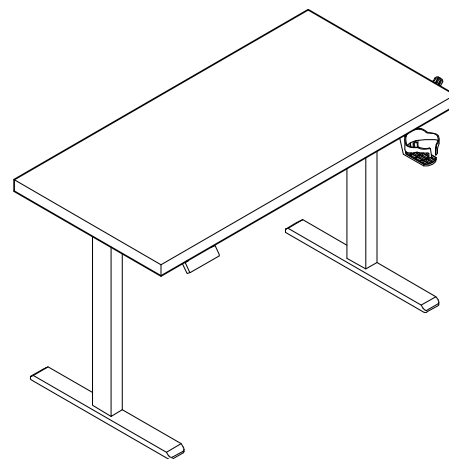

Cup Holder  
(Install according to your preference)

Hanging Accessories (Headphones, etc.)  
(Install according to your preference)

Step 2: Install the panel. (For other accessories, please refer to the installation instructions for the lifting frame.)

Step 3: Installation complete.
