

Metal Loft Bed

Full

Weight Limit:

Upper Bed: 300 LBS / 136 KG

WARNING

Loft bed: Full

- **STRANGULATION HAZARD** - Never attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts and jump ropes.
- Follow the information on the warnings appearing on the upper bunk end structure and on the carton. Do not remove warning label from bed.
- The mattress platform is designed to support a mattress without the need for a posture board or box spring.
- Always use the recommended size mattresses or mattress supports, or both, to help prevent the likelihood of entrapment or falls.
- Use only mattresses which are **74" - 75"** long and **53" - 54"** wide on bed. Ensure thickness of mattress does not exceed **6"**. Surface of mattress must be at least **5" (127 mm)** below the upper edge of guardrails. For your comfort, we suggest a minimum mattress thickness of **4"**.
- Do not allow children under **6** years of age to use the upper bunk.
- Always use guardrails on both long sides of the upper bunk. If the bunk bed will be placed next to the wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and wall (applicable for bunk beds with full length guardrails on one side).
- Periodically check and ensure that the guardrail, ladder, and other components are in their proper position, free from damage, and that all connectors are tight.
- Do not allow horseplay on or under the bed and prohibit jumping on the bed.
- Do not use substitute parts. Contact the manufacturer or dealer for replacement parts.
- Use of a night light may provide added safety precaution for a child using the upper bunk.
- The use of water or sleep flotation mattresses is prohibited.
- Always use the ladder for entering and leaving the upper bunk.
- Prohibit more than one person on upper bunk.
- Keep these instructions for future reference.

How To Use The Ratchet

1. Before assembling the furniture, please adjust the lock tool as needed.

2. Tighten or loosen the bolts

- **Tighten bolts** : Locate the turncap (picture) and rotate it clockwise to screw the bolt quickly, until it cannot be rotated any more. Then start rotating with the handle clockwise to finalize tightening the bolts.
- **Loosen bolts** : Rotate the handle counterclockwise to loosen the bolt. Then, to completely remove the bolts, continue rotating with the turncap in the same direction.

Helpful Hints

- Before assembling the furniture, please read the instructions on how to use ratchet, it will help you to assemble the furniture quickly.
- Please don't throw away the ratchet in case you may need to use in future.

Step 1

Slide the **F2** brackets onto the ends of the **T** rails.

Fit the **T + F2** subassembly into the slots on posts **A** and **B** as shown, then fasten in place using four screw **2**.

X 4

Step 2

Attach **E2** to **B** and **T** with **4**.

X 4

Step 3

Attach **I** to **A/B** with **5** and **6**.

Step 4

Attach **V3** x 2 to **M** with **7**.

Step 5

Insert subassembly (V3&M) into A/B with

7.

⚠ Warning label must be oriented on the same side as the side rail slot.

⚠ Self-tapping screws must be oriented on the same side as the side rail slot.

Step 6

Slide the **F2** brackets onto the ends of the **T** rails.

Fit the **T + F2** subassembly into the slots on posts **C** and **D** as shown, then fasten in place using four screw **2**.

Step 7

Attach **E2** to **C** and **T** with **4**.

X 4

Step 8

Attach **I** to **C/D** with **5** and **6**.

Step 9

Attach **V3** x 2 to **U** with **7**.

Step 10

Insert subassembly (V3&U) into C/D with

7.

Step 11

Insert **F2** onto the ends of **G**, **H**;
Insert subassembly **H&F2**, **G&F2** into **A**,
B, **C** and **D** as illustrated, then secure with
3.

! Wide side of the plastic housing
must be facing up and inside !

X 8

12.1

12.2

Step 12

12.1 Attach **E/F** to **BC** and **AD** with **5** and **6**.

12.2 Then attach **E** to **G** and **F** to **H** with **1**.

Step 13

Attach **J** to **B** and **C** with **6**.

Step 14

Attach **E2** x 2 to **C/G** and **B/G** with **4**.

X 8

Step 15

15.1 Insert one end of **P** into the plastic housing on **G/H** until its ultimate end;
15.2 Insert the other end of **P** into the plastic housing on the opposite **G/H**, slide **P** down until notches on **P** fully engaged with plastic housing.

Follow the same procedure for remaining **P**.

Step 16

Attach **X** to **I** x 2 with **6**.

17.1

17.2

Step 17

17.1 Attach **Z** to **H** with **4**.

17.2 Attach **Z** to **D** with **6**.

Step 18

IMPORTANT: Use screws and wall anchors appropriate for your wall type when installing the wall mounting kit.

⚠ CAUTION: This unit is intended for use only with the products and/or maximum weights indicated. Use with other products and/or products heavier than the maximum weights indicated may result in instability or cause possible injury.

⚠ Weight Limit:
Upper Bed: 300 LBS / 136 KG

That's it ! You've finished assembling your **Metal Loft Bed!**

Helpful Hints

- Move your new furniture carefully, with two people lifting and carrying the unit to its new location.
- Your furniture can be disassembled and reassembled to move.
- Some parts have been pre-assembled for this item. They are illustrated on this page and available for replacement.
- Clean the product with a soft damp cloth. **DO NOT** use harsh chemicals or abrasive cleaners.
- Check bolts and nuts periodically and tighten if necessary.
- Do not use risers under this bed.
