

# 4' Garden Bridge

## Tools Required:

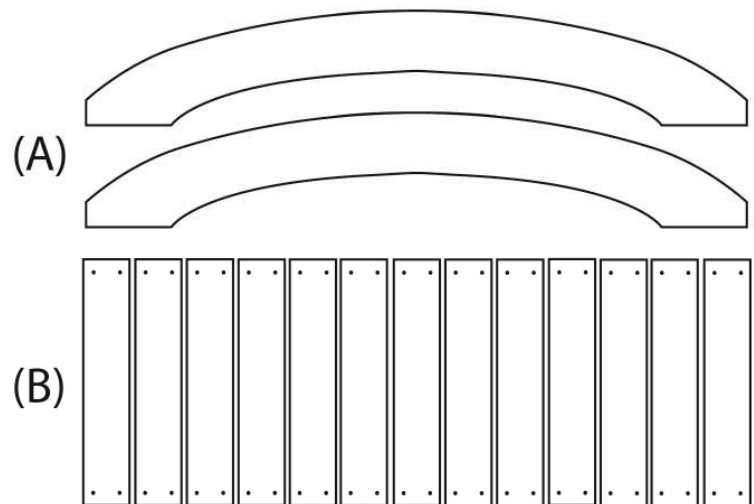

- You will need a #2 Philips or Robertson driver

## Package Contents:

- (A) Sides...2
- (B) Foot Planks...13

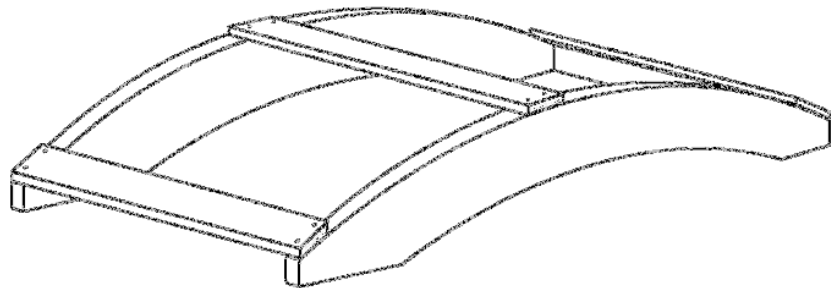

## Hardware:

- 1-3/4" Screw ...52

## STEP 1. Align Sides

- Use a foot plank (B) to make sides parallel at 35 inches apart (outside edge to outside edge).
- Attach a foot plank to both ends and one in the center using 1-3/4-inch screws.

## STEP 2. Attach Foot Planks

- Layout the remaining foot planks across sides.
- Create uniform spacing between each plank and attach using 1-3/4-inch screws.
- Your new bridge is ready for use.
