The Lecture Dining Chair is a modern reinterpretation of a classic elementary school chair design. This version features a one-piece, upholstered seat and back, with unique, channel-stitch detailing. The back incorporates a functional leather and brass handle. The black, powder-coated steel legs are reinforced with solid metal stabilizers. Functional, comfortable and stylish, the Lecture Chair works well for any workspace or dining area.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Lecture Dining Chair - Upholstered

- One-piece, molded plywood seat/back with channel-stitched upholstery.
- Black, powder-coated frame is bench-made from solid, round steel.
- Leather is top grain, aniline-dyed.
- Our leathers may have distinct surface characteristics, natural markings, grain pattern and colour variations which differ from hide to hide and from one product to another, making each leather product unique.
- Surface scratches and wear marks on leather are normal and to be expected. Over time they will contribute to the unique personality, patina and visual charm of the design. If desired, scratches and wear marks may be minimized with the use of leather conditioner.
- With all leather products, some stretching over time is normal. This "working in" of the leather only adds to the comfort, softness and character of the design.
- Flatbar braces add functional style and stability.
- Features a leather handle with brass hardware.
- Plastic bumpers on legs to protect hardwood floors.
