

Specifications

Material: Plastic, Aluminum Alloy, Stainless Steel

Process: Polishing, Die-casting

Coffee Machine Principle: Pump Pressure Type

Coffee Pot Classification: Steam Type

Plug Type: US Standard

Type: Semi-automatic Coffee Machine

Voltage: 110V

Power: 1050W

Pressure: 15-20Bar

Water Tank Capacity: 1.5L/50.73oz

Temperature Range: 92-100°C/197.6- 212°F

Gross Weight: 3.9kg/8.6lbs

Net Weight: 3.2kg/7.1lbs

Product Size: 18.5*26.4*28cm/7.2*10.4*11in

Package Size: 32.5*31.5*25cm/12.8*12.4*9.8in

Package Included

1*Coffee Machine

1*Portafiter

1*One-cup Filter

1*Two-cup Filter

1*Spoon&Tamper

*1*English Manual*

Notes

1. When using this semi-automatic coffee machine, please place the ground coffee ingredients and press it firmly.
2. Please note that this product does not include coffee ingredients etc.
3. Please note that when brewing coffee, the funnel handle needs to be turned to the locked position.
4. Please be careful not to brew coffee in steam mode or immediately after steam. If coffee is brewed directly without cooling, it may burn and there will be spillage at the funnel. Cool naturally or by boiling a small cup of water.
5. Please note that we recommend using whole milk(not included) to ensure good frothing. After the milk has foamed, clean the nozzle by releasing quick steam.
6. Please make sure that the water in the tank does not fall below the MIN water level line, otherwise the product may cause abnormal noise.
7. It is suitable for espresso beans and should not be used for brewing tea drinks.
8. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
