N7	Nozzle 7	1
N8	Nozzle 8	1
N9	Nozzle 9	1
N10	Nozzle 10	1

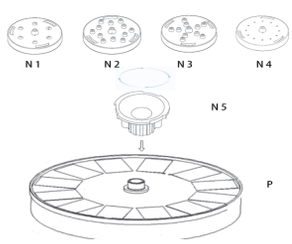

Fig1

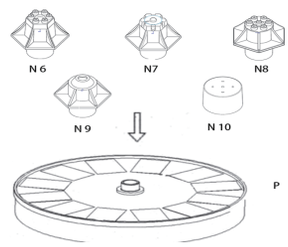

Fig2

Installation

1.Assembling N5 with the pump outlet,and then with connecting nozzles N1/N2/N3/N4 (Fig1) or panel connecting nozzles N6/N7/N8/N9/N10 directly.(Fig2)

2.Putting the product into water,making sure the water pump is completely immersed in water. Let the sunlight shine directly on the solar panel without any shade so that the water pump can start spraying water.

Feature

●The Lifetime:≥10000Hours

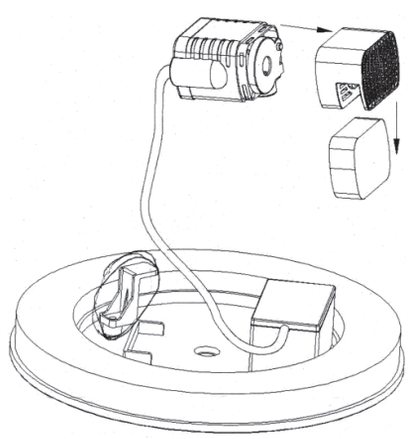

●Restart:The fountain pump will restart automatically in 3seconds once bright sunlight shines directly again on the solar panel without any shade.

Specification

●Solar Panel:7V/1.4 W
●Maximum Lift of Pump:70 cm
●Maximum Water Height:30-60
●Size of Solar Panel:D160mm
●The Power of Pump:0.5~0.85W
●Maximum volume of

Note

1.Before using the product,the protective film on the solar panel should be removed to avoid affecting the normal operation of the product.
2.Make sure to let the full solar panel face directly to the sun! The pump may not work under shadow or cloud.
3.The pool should have enough water to make sure the pump is completely immersed in water.
4.After installing the nozzle, the entire product needs to be immersed in water for 8 to 15 seconds, then float it on the water surface, and it can spray water.
5.Cleaning the pump and panel regularly.Make sure nothing covers any part of solar panel or blocks the pump.
6.The power of the solar panel depends on the sunlight so the pump is influenced by the weather,seasons and places,etc.
7.Don't make the pump work without water for a long time,otherwise,its lifespan will be shortened.
8.If you find water spray is blocked,you can remove the pump for cleaning.
(As shown on the right picture.)
