

## **Instructions for BDB-88**

### **Bamboo Day Bed/Pergola**

**<https://www.youtube.com/watch?v=HgYWkmxJEYM>**

#### **Included:**

- Roof
- Two Side panels
- Back Panel
- Bed/Floor
- All Hardware

#### **You will need:**

- Rubber Mallet
- Power Drill
- Ladder/Stepstool (s)
- Additional People- It would be good to have 2-4 additional People, Installation of the roof may take 4-5 people.

#### **Instructions**

- 1.) Get the Floor and one Side panel. Fit the floor in to the large holes on the side panel, then use the rubber mallet to tap the side panel securely onto the floor “posts”. Repeat for the other side panel.
- 2.) Get the Back Panel, and do the same, Fitting the back panel piece into the holes on the side panels, and tapping with a rubber mallet to secure.
- 3.) Using the Power Drill and included Screws, install the screws into the pre-drilled holes on the edges of the pergola.
- 4.) Lift the pre-built roof on top of the structure, then secure with provided screws. You may want to hand screw the screws in first, then tighten with the drill.
- 5.) Enjoy your new Daybed Pergola!
- 6.)
- 7.) For more help, please watch the video on YouTube, at the address above.
