Screwdriver

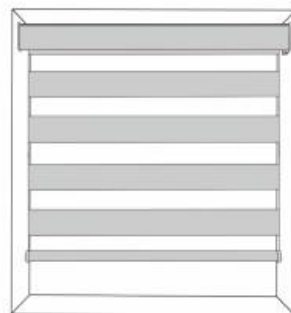

Pencil

02

Installation Options

Appearance Post-Installation

A. Inside Mount

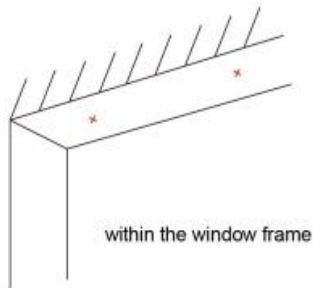

B. Outside Mount

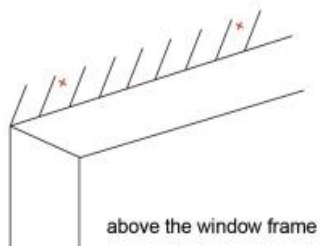

03

Step 1: Measuring and Marking

Mark the locations for the brackets ensuring that they are level, aligned at the same depth, and equidistant from the edges.

A. Inside Mount

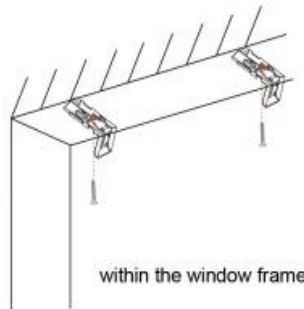

B. Outside Mount

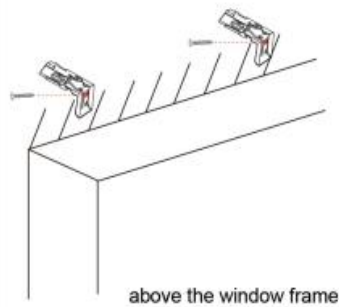

04

Step 2: Attaching the Brackets

Secure each bracket with screws, making sure they are perfectly aligned and level.

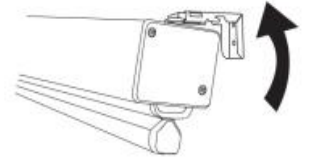

A. Inside Mount

B. Outside Mount

05

Step 3: Mounting the Shade

Insert the top front groove of the headrail into the brackets. Then, rotate the headrail upwards until it clicks into place, indicating a secure installation.

Ensure the installation is secure when you hear a 'click' sound
