ASSEMBLY INSTRUCTION

26-A

IMPORTANT NOTE

1.Please check that all parts are complete before installation.
2.Please strictly follow the installation steps to install.
3.Please install the bed on a clean and smooth surface to prevent any damage
4.Please do not use the power tools to assemble the bed.
5.Please periodically check all the fittings and re-tighten as necessary.
6. Please do not use the bed unless all bolts and screw are firmly secured
7.Note: Distinguishing between the numbers 6 and 9 is important — the number 9 is underlined. Please first tighten all screws to 60%, and then tighten them to 100% after installation is complete. However, do not overtighten (i.e., the tubes should not deform after the screws are tightened).
8.If you find dark yellow powder on the surface of product components after unpacking, do not panic. Just wipe it off with a damp cloth, and it will not affect the use of the product.

SAFETY WARNINGS & GENERAL INFORMATION

Please read and follow all warnings and instructions before using this bunk bed. Failure to follow these warnings and instructions may result in serious injury or death. Keep these instructions for future reference.

1. Read All Warning Labels

Follow all warning labels and instructions on the bunk bed and carton. Do not remove any warning labels from the bed.

2. Use the Correct Mattress Size

Always use a mattress of the recommended size and thickness. Using an incorrect mattress may increase the risk of entrapment or falls.

3. Age Restriction

Do not allow children under 6 years of age to use the upper bunk.

4. Inspect the Bed Regularly

Periodically check the guardrails, ladder, and all other components to make sure they are properly positioned, undamaged, and securely fastened. Tighten all connectors as needed.

5. No Horseplay

Do not allow horseplay on or under the bunk bed.

6. No Jumping

Do not allow jumping on the bunk bed.

7. One Person on the Upper Bunk

Do not allow more than one person on the upper bunk at a time.

8. Always Use the Ladder

Always use the ladder when getting into or out of the upper bunk.

9. Use Only Approved Replacement Parts

Do not use substitute or unauthorized parts. Contact the manufacturer or dealer for replacement parts.

10. Consider Using a Night-Light

A night-light may provide additional safety for a child using the upper bunk.

11. Guardrails Are Required

Always use guardrails on both long sides of the upper bunk.

12. Wall Placement and Entrapment Hazard

If the bunk bed is placed next to a wall, position the full-length guardrail against the wall to help prevent entrapment between the bed and the wall.

Do not use waterbeds, water mattresses, or sleep flotation mattresses with this bunk bed.

13. Strangulation Hazard

Warning: Strangulation Hazard
Never attach, hang, or tie items to any part of the bunk bed unless they are specifically designed for use with the bed.This includes, but is not limited to:
①Hooks Belts②Ropes③Jump ropes④Cords⑤Scarves These items may create a strangulation hazard.

14. Keep These Instructions

Keep these instructions for future reference.

15. Protect Your Floor During Assembly

We recommend assembling the bunk bed on top of the shipping carton to help protect your floor or carpet.

16. Remove Staples Before Assembly

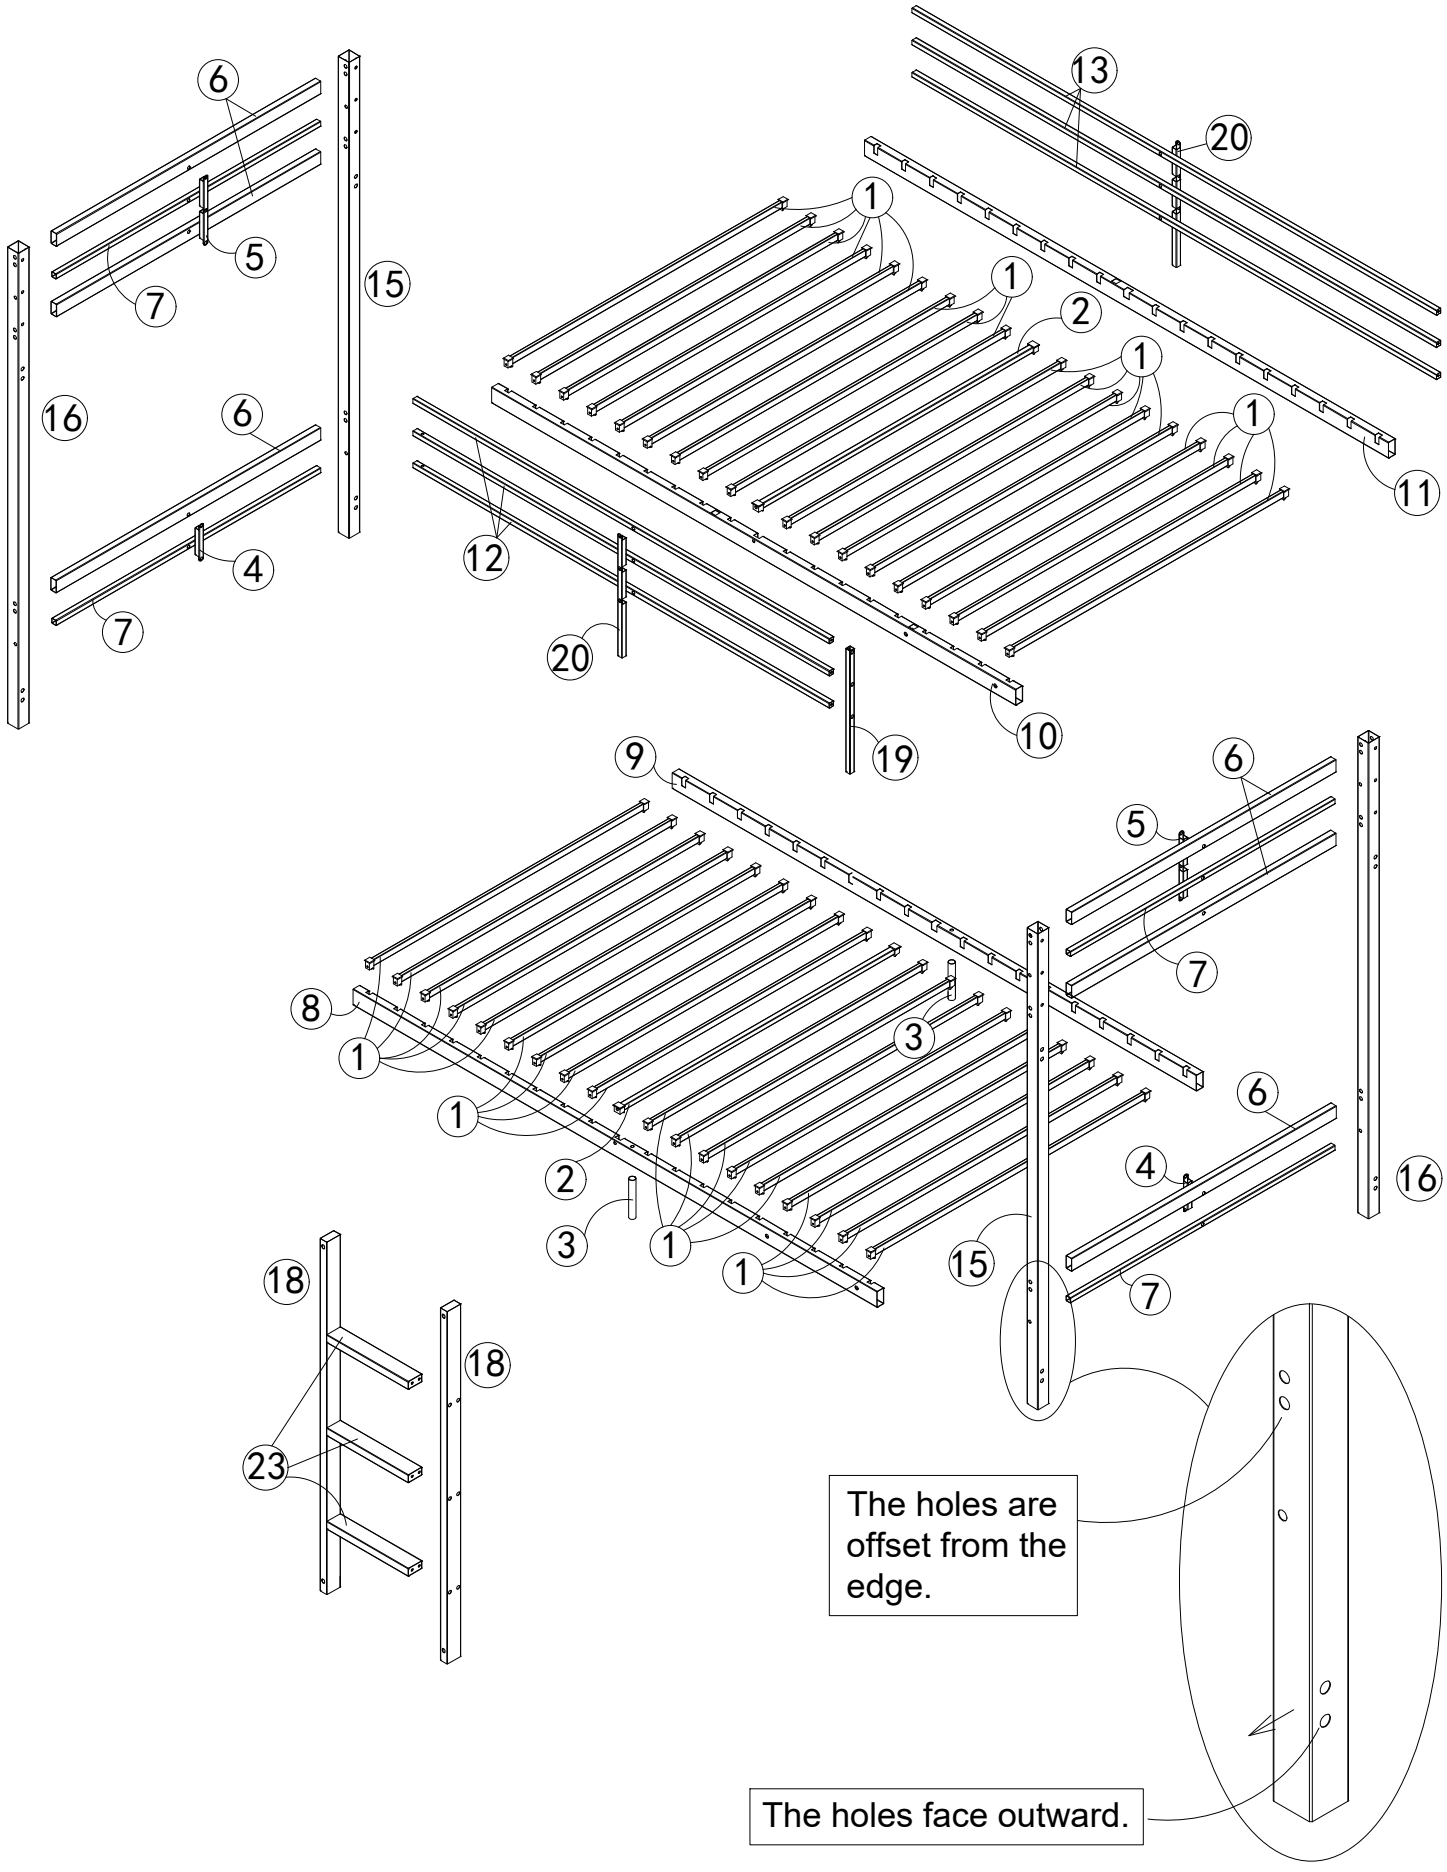

Before beginning assembly, make sure all staples have been removed from the shipping carton.

17. Use Only the Recommended Mattresses

Use only the recommended mattresses on both the upper and lower bunks.

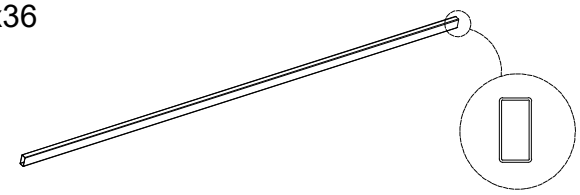

Bunk	Recommentde Mattress Size		Thickness
Upper Bunk	75x38-38.5in		5-8in
Lower Bunk	75x38-38.5in Twin-over-Twin	75x53-54in Twin-over-Full	5-8in

Hardwares List

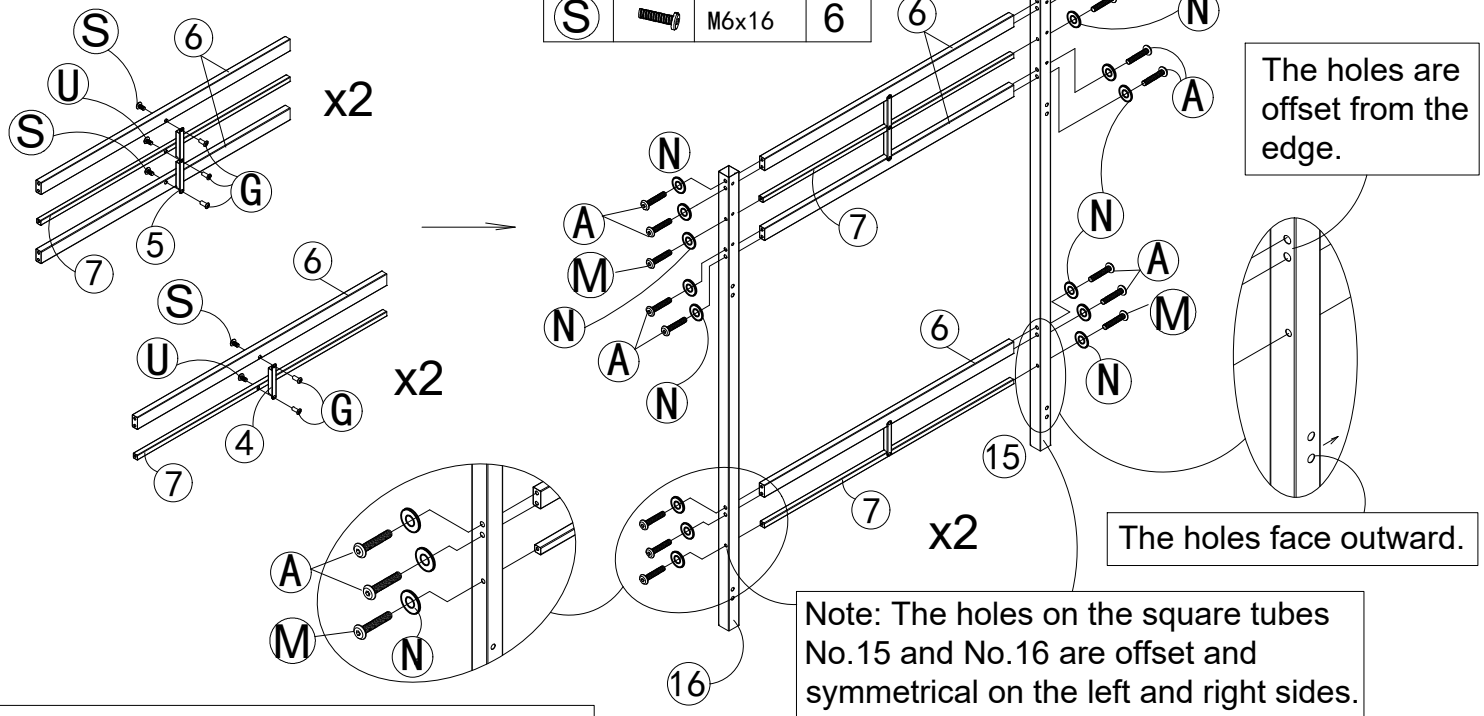

Item	Description	Qty
A	 M8x60	45
B	 M8x20	3
C	 M8x40	13
D	 ϕ7.8mm hole Plug Gasket with Holes	9
E	 M6x30	8
F	 M8x25	5
G	 M6x12	17
H	 16x16	5
J	 M6 Allen key	2
K	 M8 Allen key	2
M	 M6x60	18

Item	Description	Qty
N	 M8 M6	58
P	 Pipe clamp matching for 40 square pipes	2
Q		4
R		4
S	 M6x16	7
U	 M6x12	11
V		1
X	 M6x20	4
Y	 10x20	74

please use the screws correctly according to the instructions.Thank you.

Step 1

A	M8x60	24	
N	M8	32	
M	M6x60	8	
K	M8 Allen key	1	
G	M6x12	10	
U	M6x12	4	
S	M6x16	6	
J	M6 Allen key	2	

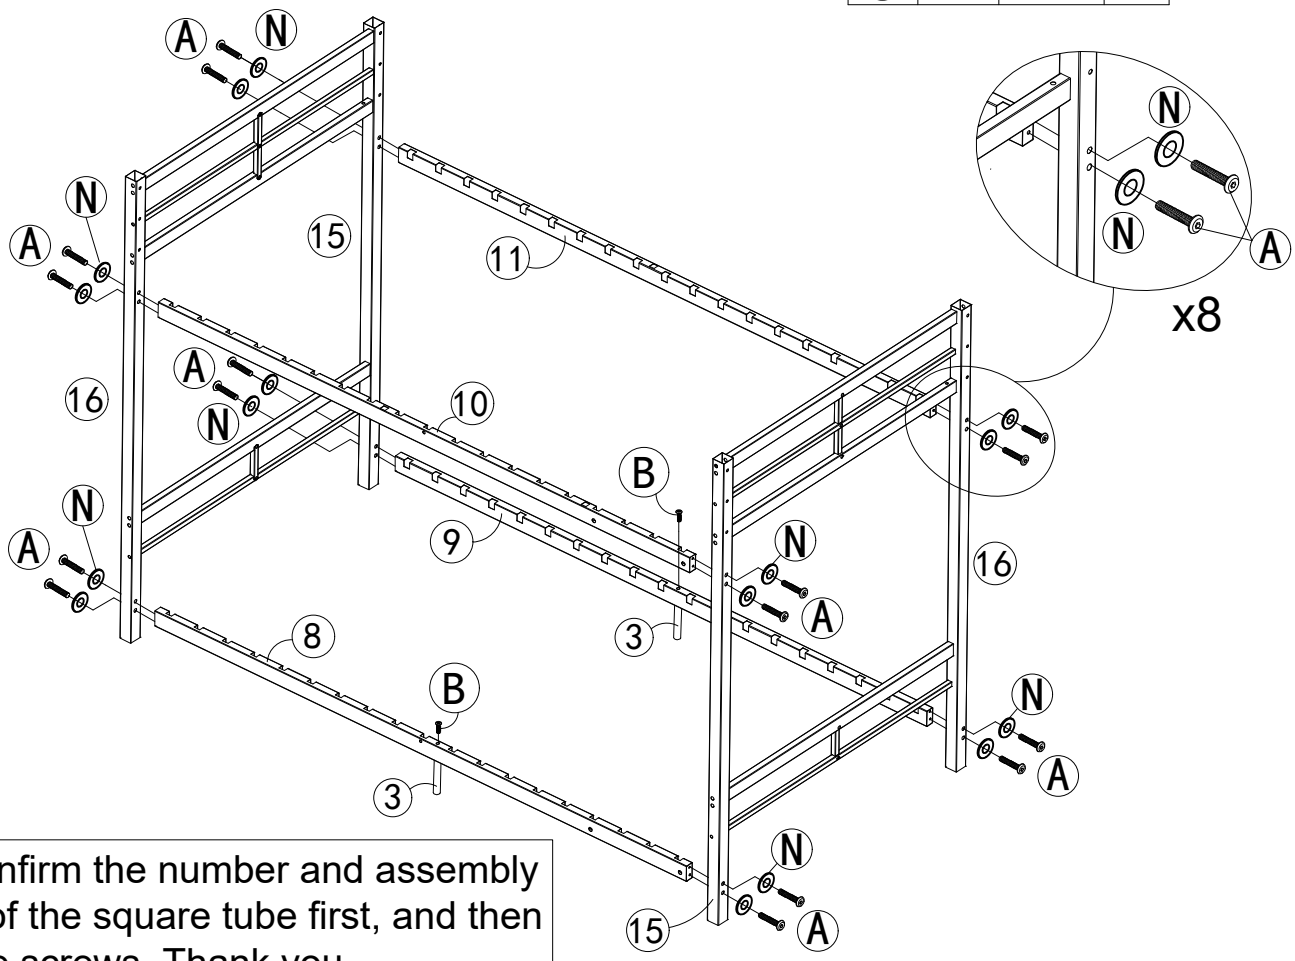

Note: Do not tighten the screws too much. Make sure the tube is not deformed.

Note: The holes on the square tubes No.15 and No.16 are offset and symmetrical on the left and right sides. Please observe carefully during assembly.

Step 2

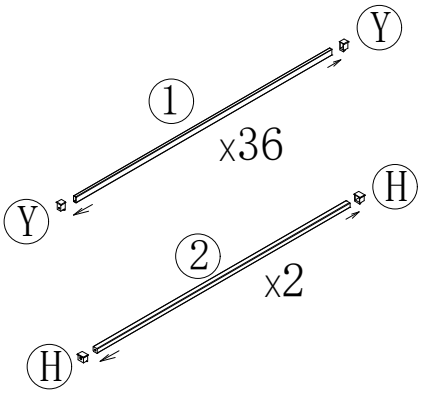

A	M8x60	16	
K	M8 Allen key	1	
N	M8	16	
B	M8x20	2	

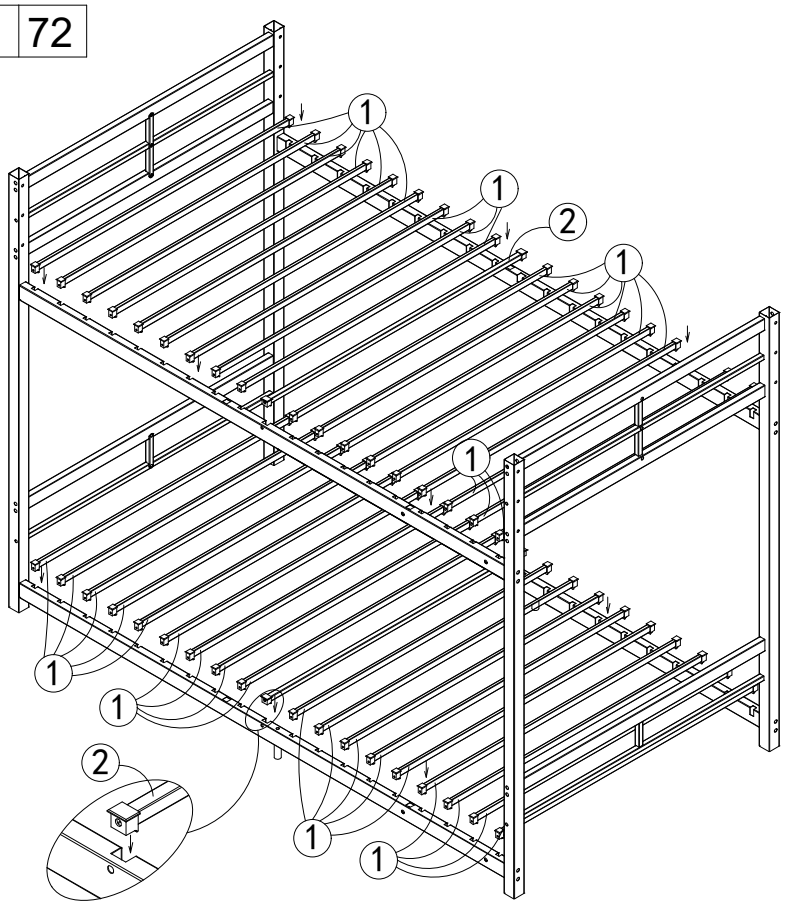

Please confirm the number and assembly direction of the square tube first, and then tighten the screws. Thank you.

Step 3

H		4
Y		72

1. Identify all installation parts and rubber fasteners by their corresponding numbers in the illustration. 2. Fit the rubber fasteners over both ends of the tube as specified in the drawing. 3. Following the sequence shown in the right illustration, press the pre-fitted tube firmly into the retaining groove. 4. Ensure that the No. 2 tube is seated in the slotted aperture.

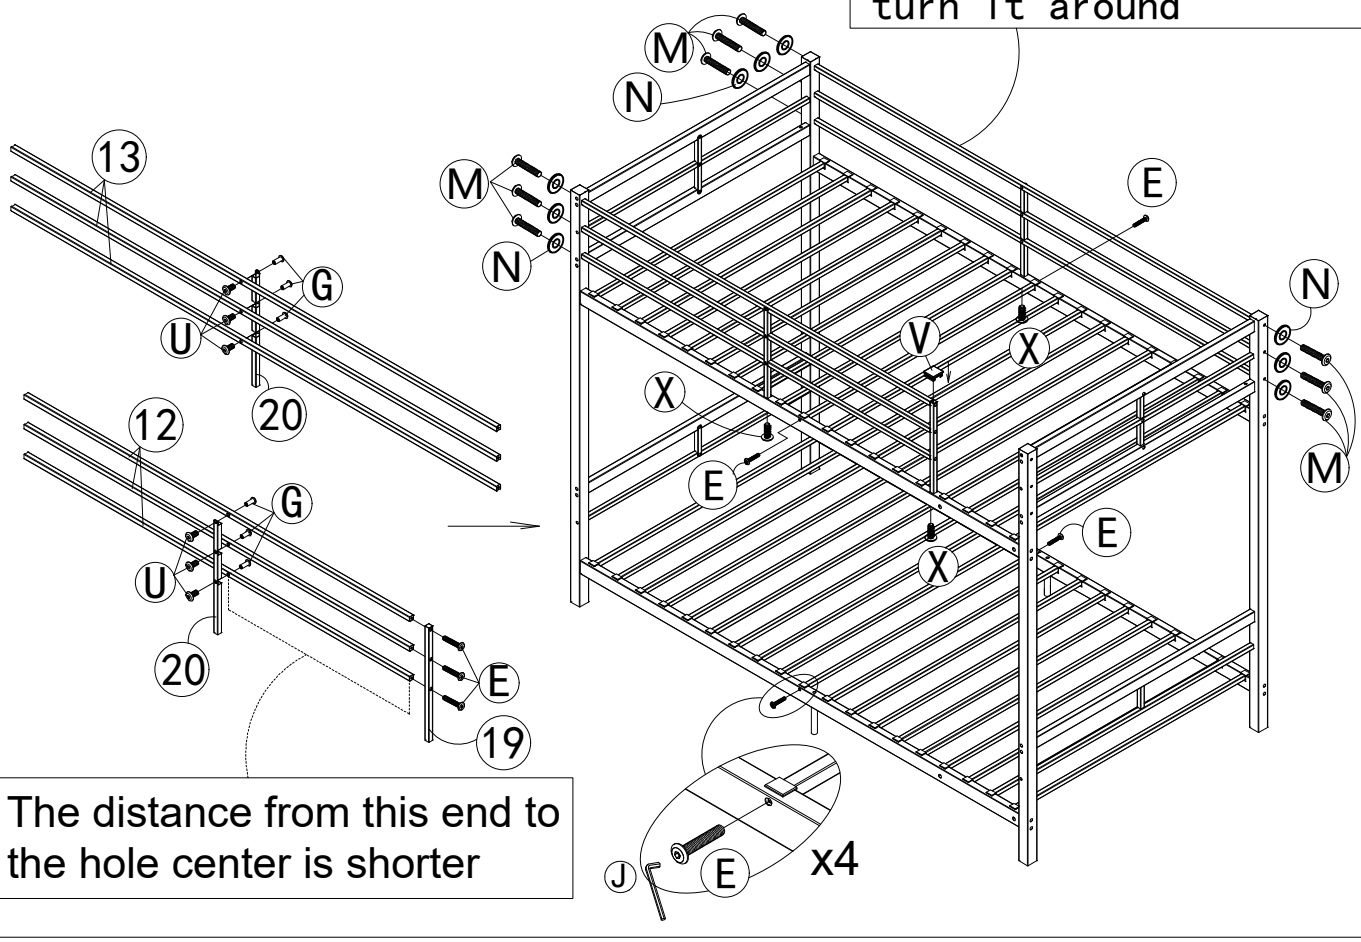

Step 4

G	M6x12	6	
U	M6x12	6	
N	M8	9	
X	M6x20	3	

M	M6x60	9	
V		1	

J	M6 Allen key	2	
E	M6x30	7	

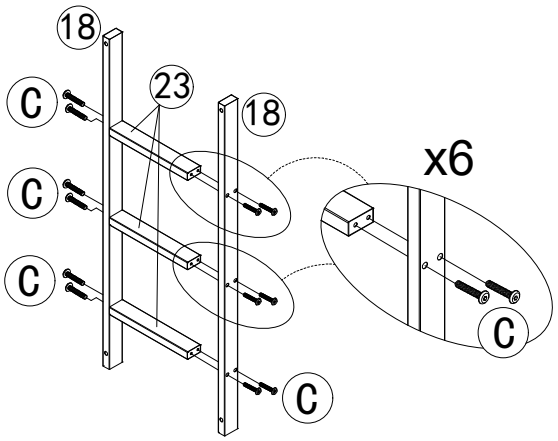

If the two ends of the rear fence cannot be screwed down, turn it around

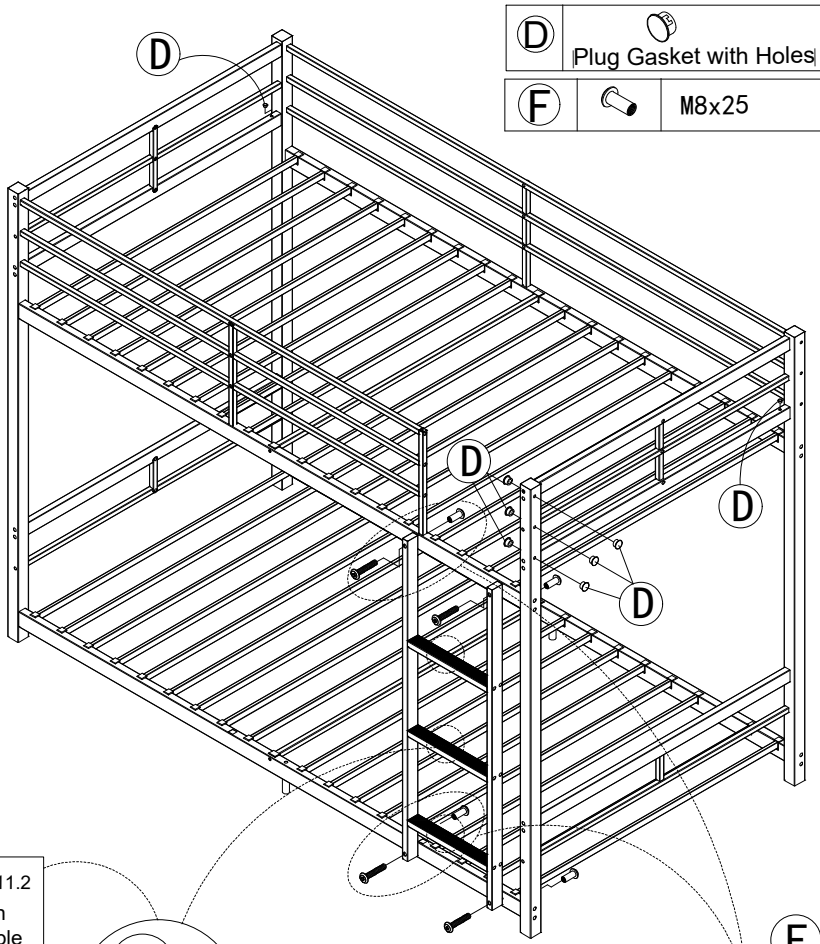

The distance from this end to the hole center is shorter

Step 5

K		M8 Allen key	2
A		M8x60	4
C		M8x40	12
D		Plug Gasket with Holes	8
F		M8x25	4

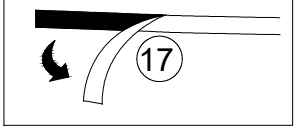

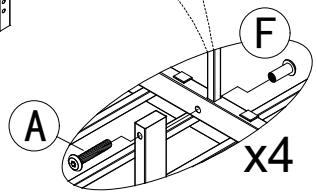

Note: Assemble the staircase strictly according to the drawing, and do not install it upside down.

REMARK: 11.1
Clean the sticking part and keep it clean before sticking the velcro, to avoid affecting the stickiness.

REMARK: 11.2
Tear off the white isolation paper on the back of Bubble Pads

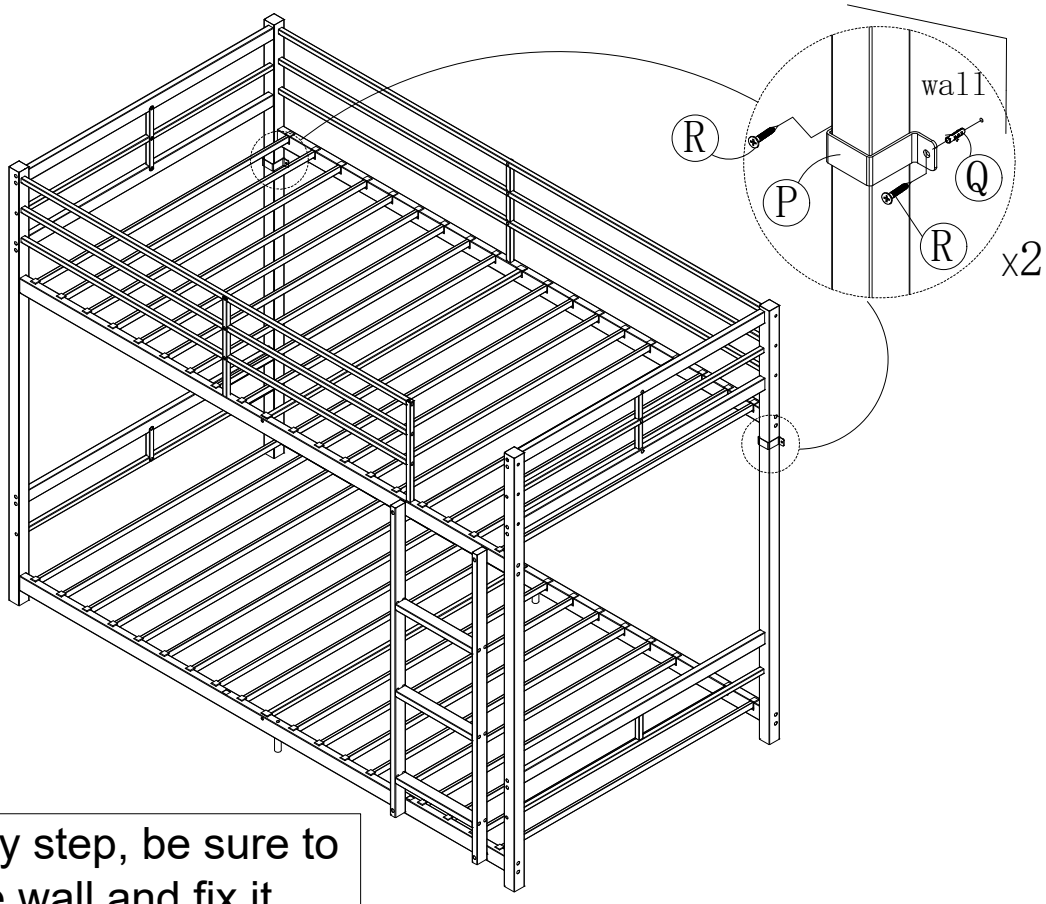

Step 6

R		M6x35 Screw	4
Q		Anchor	4
P			2

For the final assembly step, be sure to drill holes against the wall and fix it securely with pipe clamps. Thank you.
