WINE RACK ASSEMBLY INSTRUCTIONS

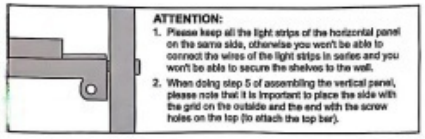

Assembly recommendation: Please do not tighten the screws first during the assembly process,wait until the assembly is complete before tightening them evenly.

PLEASE CONTACT US IF THERE IS A PROBLEM WITH THE ITEMS

Please check the delivered items for any breakage, defects, if there is any problem, please contact us through Amazon (not the official Amazon customer service chat,but the seller) and we will provide a satisfactory solution for you.

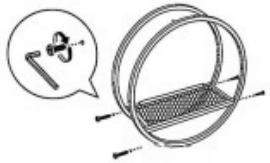

ATTENTION:

1. Please keep all the light strips of the horizontal panel on the same side, otherwise you won't be able to connect the wires of the light strips in series and you won't be able to secure the shelves to the wall.
2. When doing step 5 of assembling the vertical panel, please note that it is important to place the side with the grid on the outside and the end with the screw holes on the top (to attach the top bar).

STEP 1

Attach the panel between two circles

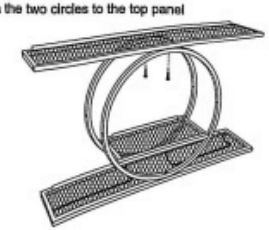

STEP 2

Attach the two circles to the bottom panel

STEP 3

Attach the two circles to the top panel

STEP 4

Attach the panels on both sides of the circle

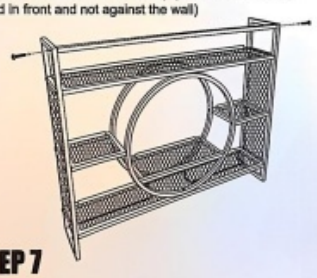

STEP 5

Attach both sides of the vertical panel by placing the side with the grid against the outside and placing the end with the screw holes at the top (to attach the top bar)

STEP 6

Attach the horizontal bar at the top (the bar needs to be placed in front and not against the wall)

STEP 7

Finally, drill holes in the wall and secure the rack with sleeve anchors.
