The Arden Ivory Vanity is inspired by a 1970s reverse-painted glass antique our director of furniture Aimee Kurzner found at the Paris flea market. The vanity features ivory reverse-painted glass panels on the top, front, and sides with solid brass trim, hardware, and legs. The ivory and gold vanity has a beveled top, and drawers with soft-close glides. A beautiful matching vanity mirror is sold separately, and the Arden family of furnishings includes several pieces in pink and in ivory.
