

Assembly Instructions

Package Contents

1 x Pre-lit Tree Body

4 x Stand Legs

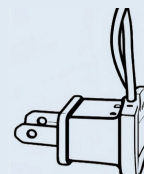

1 x Center Stand

1 x Upper Pole

1 x Lower Pole

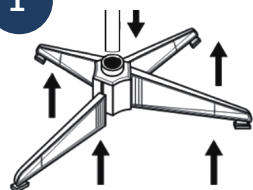

1 x Power Cord with Plug

NOTICE: Use the longer pole as the lower pole (bottom) and the shorter pole as the upper pole (top) for better stability.

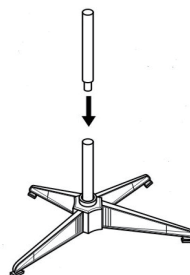

Assembly Steps

1

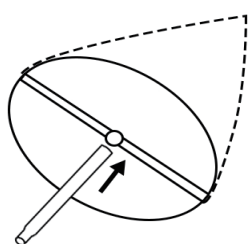

Insert the four base legs into the center stand. Then insert the lower pole into the center stand.

2

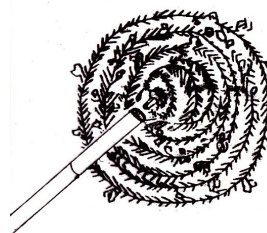

Firmly connect the upper pole to the lower pole.

3

Place the tree section over the pole. Make sure the upper pole passes through the metal opening inside the tree.

4

Insert the tip of the upper pole into the top cap inside the tree.

5

Slowly release and unfold the tree until it stands upright. Adjust the shape for the best appearance.

Safety Notes

- Disconnect power before assembly, adjustment, or storage.
- Do not plug in the tree until assembly is complete.
- If the tree does not stand properly, recheck the base, pole connections, and top cap position.
