Assembly Steps

Overview

This Counter Stool has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Counter Stool parts, the above picture is provided to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.
Friendly reminder: Tighten all the screws after all holes are installed.

Step 1

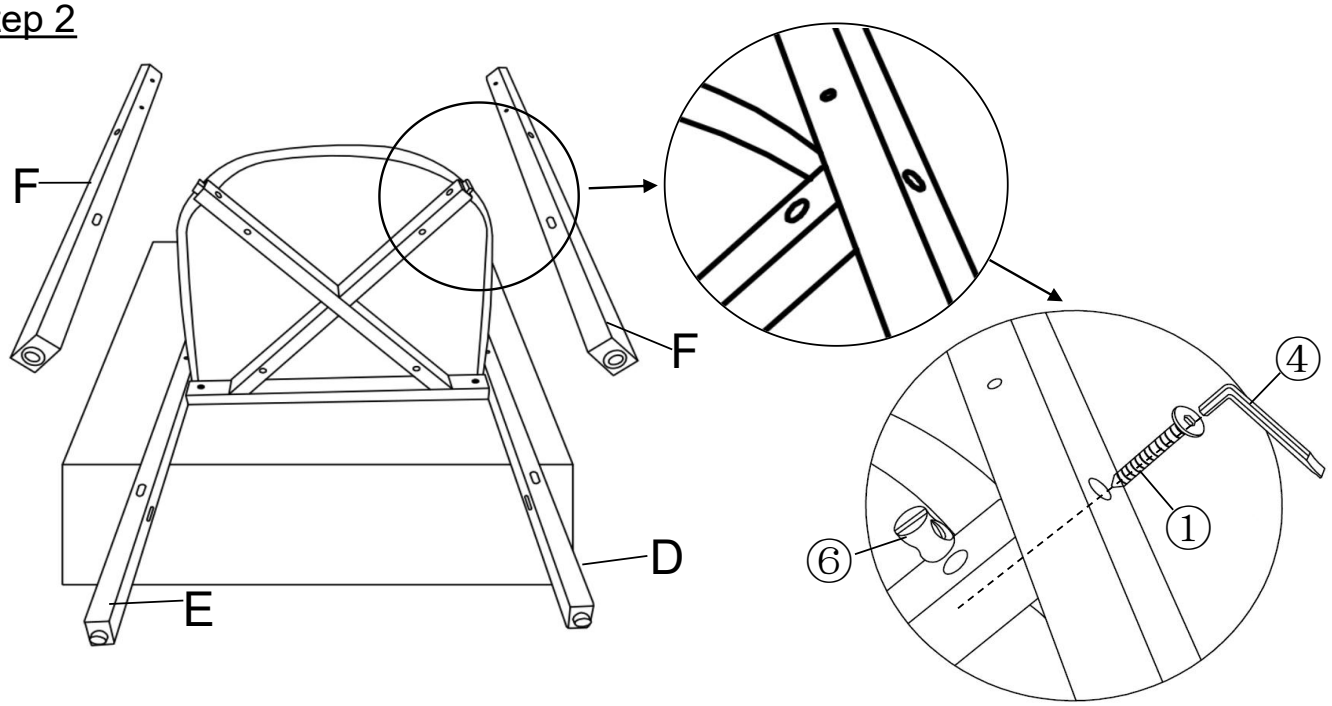

Open the carton, and place all parts on a clean, non-marring surface.

Insert the Seat (A) into the grooves on the Left Front Leg(D) and Right Front Leg(E) as shown above.
Install the Cam Locks (④) into the holes on the Seat (A) in a straight line.
Secure them using Bolts (①) and the Allen Wrench (⑥).

Do Not Fully Tighten the Bolts.

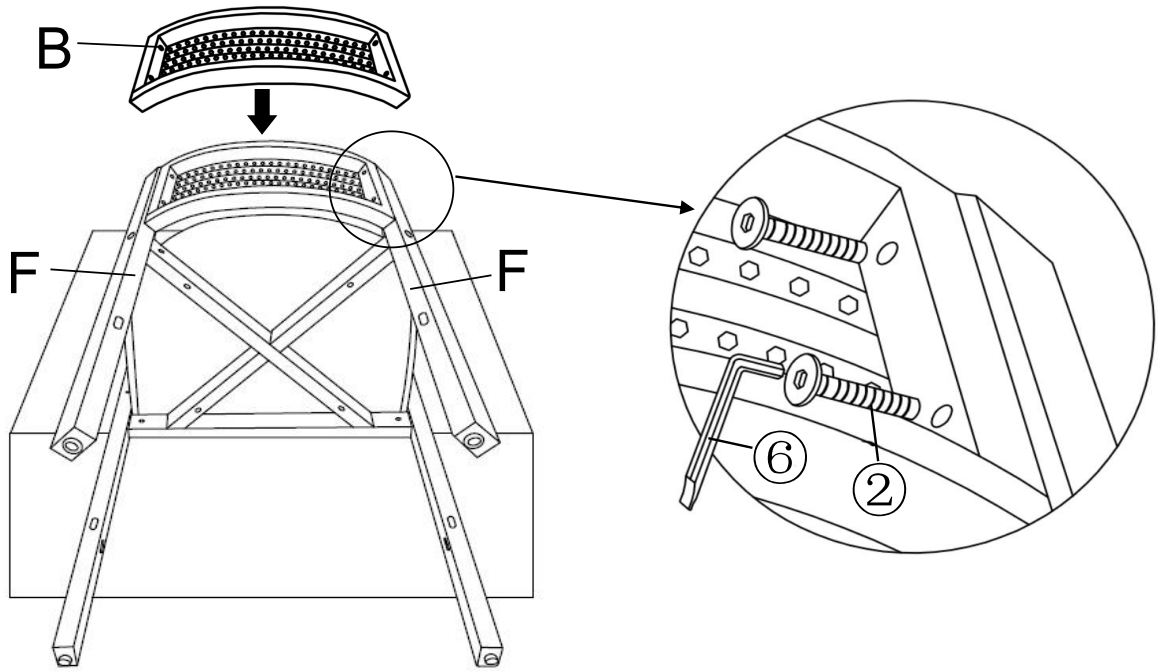

Step 2

Take out the Back Legs (F).
Insert the Seat (A) into the grooves on the Legs (F) as shown.
Install Cam Locks (④) into the holes in a straight line.
Secure with Bolts (①) using the Allen Wrench (⑥).

Do Not Fully Tighten the Bolts.

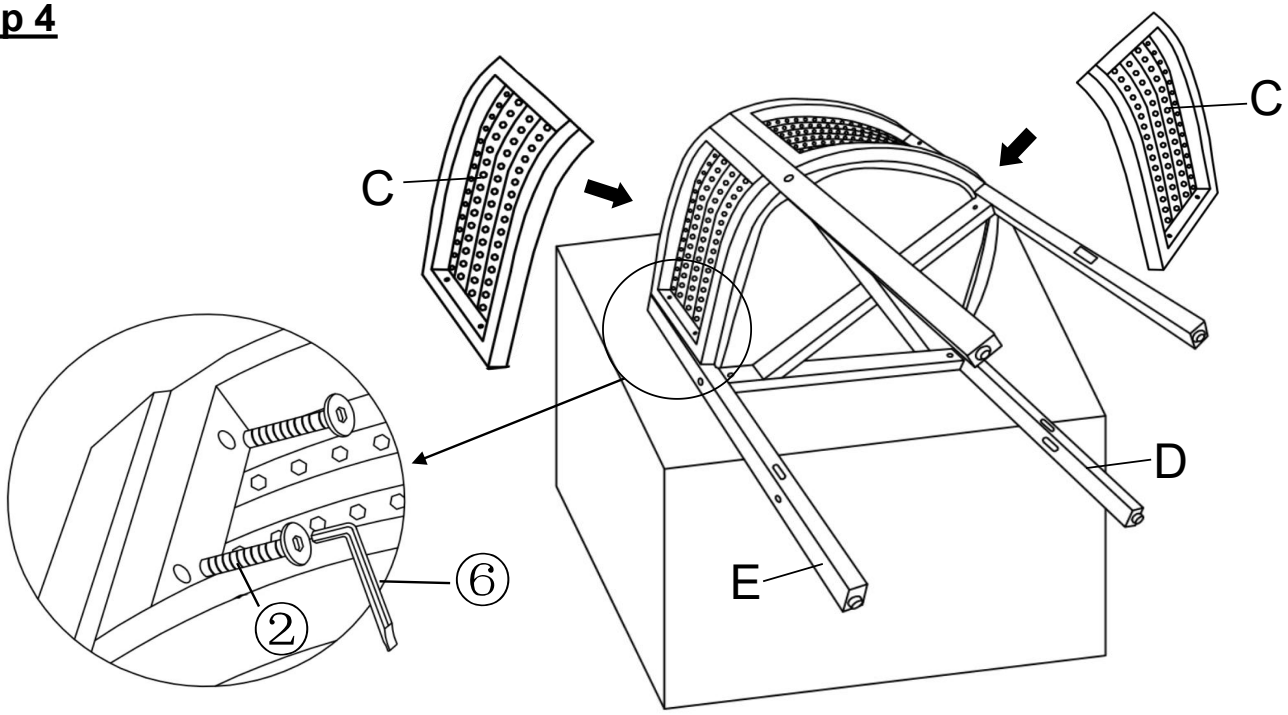

Step 3

Take out the Backrest-Middle (B).
Align the holes of the Backrest-Middle(B) with those of the Back Legs (B).
Secure them using Bolts (②) and the Allen Wrench (⑥).

Do Not Fully Tighten the Bolts.

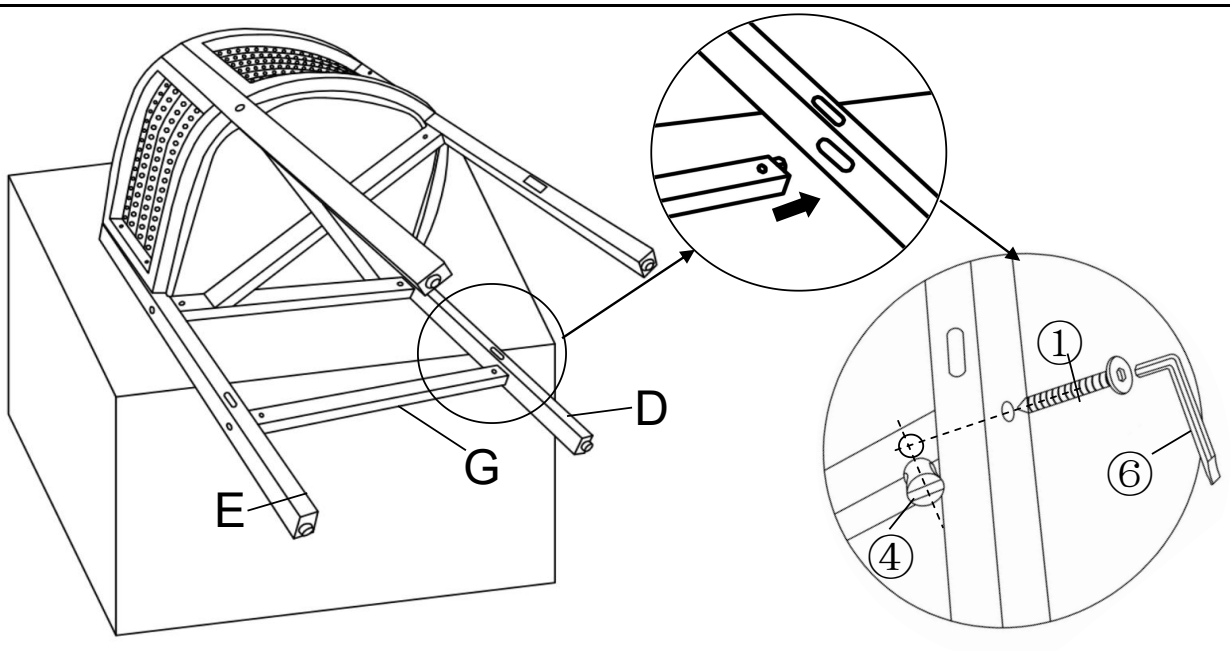

Step 4

Take out the Backrest-Left&Right(C).
Align the holes of the Backrest-Left & Right (C) with those on the Front Legs (D & E) as shown.
Secure with Bolts (②) using the Allen Wrench (⑥).

Do Not Fully Tighten the Bolts.

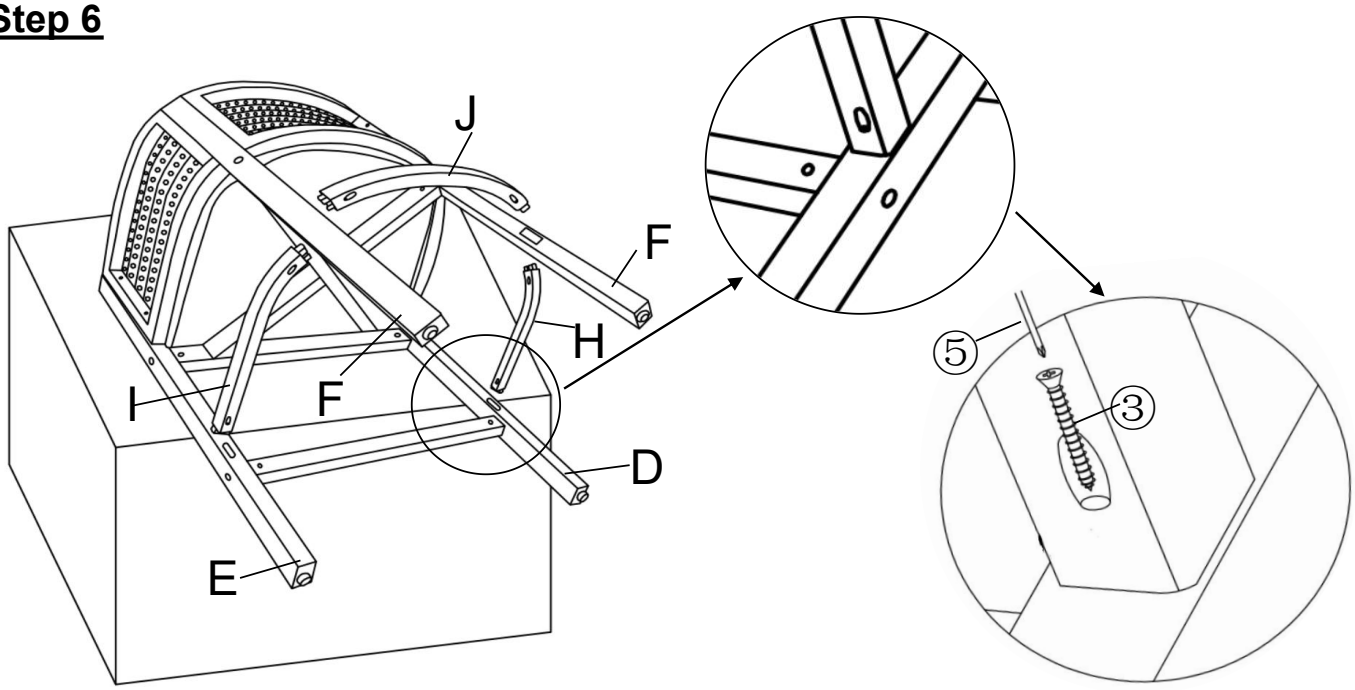

Step 5

Take out Front Crossbar(G).
Insert Front Crossbar(G) into the grooves on both Front Legs (D & E) as shown.
nstall Cam Locks (④) into the holes in a straight line.
Secure with Bolts (①) using the Allen Wrench (⑥).

Do Not Fully Tighten the Bolts.

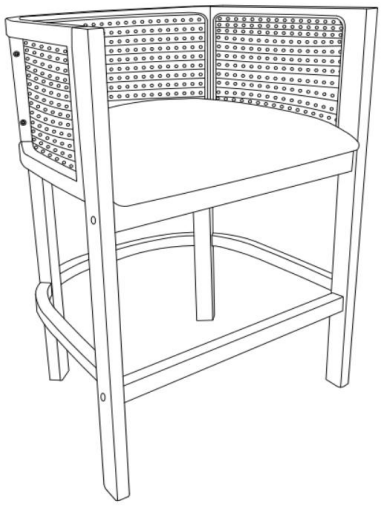

Step 6

Take out the Left Crossbar (H), Right Crossbar (I) and Back Crossbar (J).
IInsert each into their corresponding holes on the Legs (D & E & F) as shown.
Tighten them using Bolts (③) and Screwdriver (⑤).

Do Not Fully Tighten the Screws.

Step 7

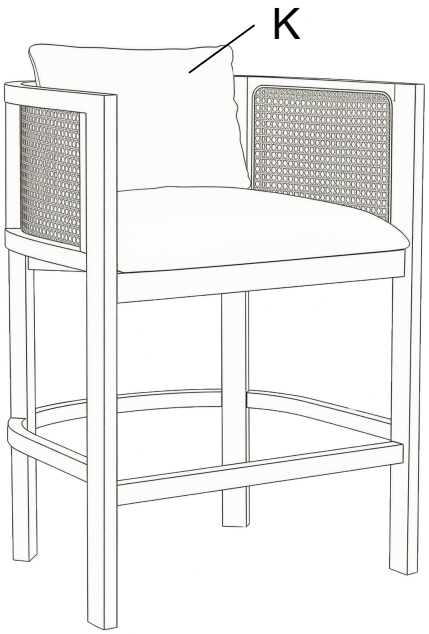

Turn the counter stool right side up and place it on a level surface.
Inspect the counter stool to ensure all parts are properly connected.
Sit gently on the counter stool to help align all joints and connections.
Step off the counter stool and, in a sequential manner, proceed to tighten all bolts.

You may need to turn the Counter stool to access certain bolt points, alwalys turn it carefully and in a synchronized manner with assistance if needed.

Tighten all bolts gradually and sequentially.

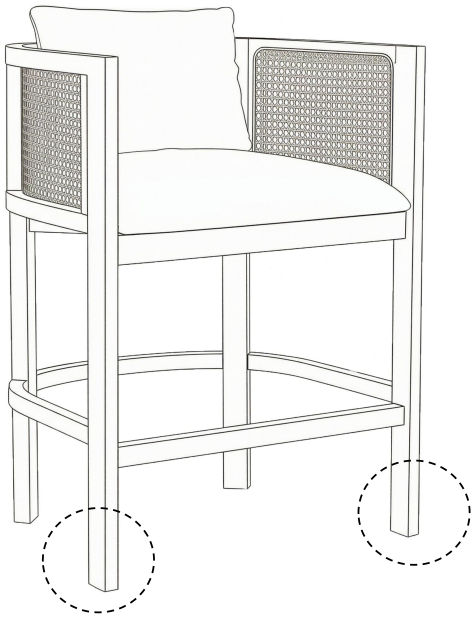

Do not fully tighten one bolt before moving to the next, as this may cause the frame to warp.
If the Counter stool still wobbles, loosen the screws slightly and repeat the tightening process.

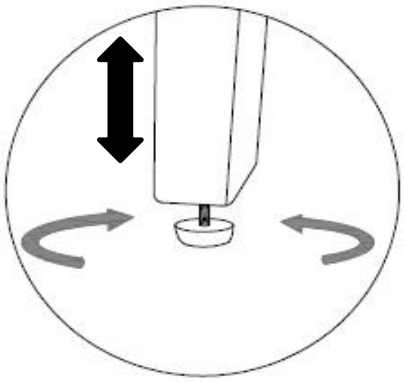

Step 8

Place the Cushion (K) against the backrest.

Step 9

Adjust the leg levelers to keep the chair steady.

The Counter Stool is ready for use.
This Counter Stool can only be used on a flat, level surface.

Questions & Answers about Proposition 65

• What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

• What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

• What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

• Where can I get more information on Proposition 65?

If you have specific questions on the administration or implementation of Proposition 65, you can contact OEHHA's Proposition 65 program at P65.Questions@oehha.ca.gov, or by phone at (916) 445-6900.
