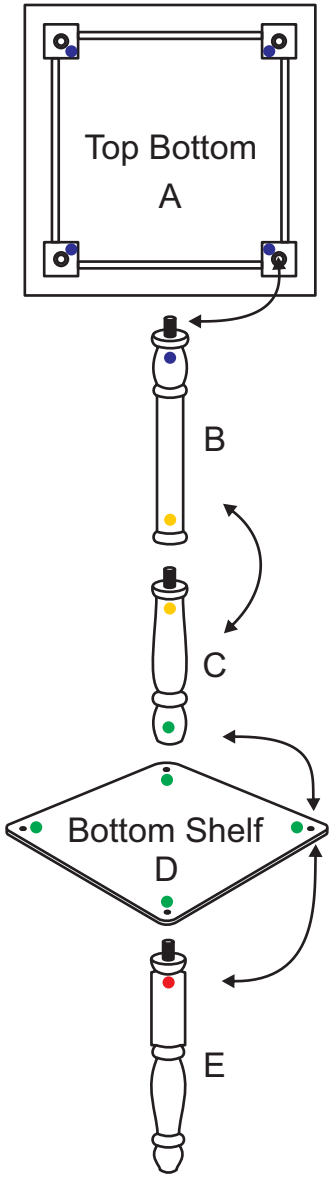
1 Pc	4 Pcs	4 Pcs	1 Pc	4 Pcs

PARTS



Step 1: Prepare the Top Panel (A):
Place Top Panel (A) upside down on a soft, flat surface to prevent scratches or damage during assembly.

Step 2: Attach Leg Parts (B) to Top Panel (A):
Each Part (B) leg section comes with a pre-installed threaded bolt. Match the color-coded marking on each leg bolt with the corresponding marking on the corner of Top Panel (A). Insert the bolt into the hole and rotate clockwise until semi-tight (do not fully tighten yet). Repeat this process for all four legs.

Step 3: Attach Leg Parts (C) to Part (B):
Each Part (C) also includes a pre-installed threaded bolt. Align Part (C) with Part (B), then insert and rotate clockwise until semi-tight. Repeat for all four legs. Ensure all leg sections are evenly aligned before proceeding.

Step 4: Install Bottom Shelf (D) and Part (E):
Carefully slide Bottom Shelf (D) between the four legs and align the corner holes of the shelf with the corresponding holes on the legs. Insert the pre-installed bolt of Part (E) from the top through the corner holes of Bottom Shelf (D). Guide the bolt through the shelf and screw it into the threaded insert located at the lower end of Part (C). Rotate clockwise until semi-tight (do not fully tighten yet). Repeat this process for all four corners. After all connections are installed, ensure the shelf is level and properly aligned, then fully tighten all screws securely.

Step 5: Final Check:
Carefully turn the unit upright and verify: All screws are fully tightened the bottom shelf sits evenly the table stands stable without wobbling
