Geometric Progression 7

D1214S24264-2265

Geometric Motion VII is part of a series of eight geometric drawings that invite the viewer to experience the elegance of minimalist design. These understated compositions showcase line drawing techniques that explore a variety of geometric shapes that highlight the fundamental importance of the line in art.

Geometric Motion 7 features a more complex quadrilateral line drawing that commands the picture frame and invites the viewer to consider perspective.

The series is reminiscent of Josef Alber's geometric line drawings of the 1950s. Part of ART by TA, Geometric Motion 7 is an exclusive and original work of art. Textured paper shown in a Black Cap Frame.

► Frame Width: 1.625 in

W 21 x D 0¾ x H 25 inches

Material(s): Paper

Collection: Art by TA

Style: Modern / Formal Modern

Type: Décor / Wall Art
