

Wood Unassembled Box Spring/Foundation

ASSEMBLY GUIDE

1. Remove product bundle from shipping box.

2. Begin by setting up the end rails.

3. Set the center rail in place.

4. Place the side rails in place, notches facing up.

5. Use bolts and nuts to connect long rails to the end rails.

6. Put cross supports in side rails notches.

7. Secure the cross supports using the 1 1/4" screws.

8. Foundation should look like this.

9. Put the cover on Foundation and tighten it using draw strings.

note: For Twin size, there is no center rail.
